2. The reports as per margin received from the Collectors and Presidents, District Local Boards, are also appended.

Statement No. I.

3. The area remained unchanged during the year. The population has been shown according to the Imperial Census of 1891.

4. There was no change made in the number and constitution of the Boards during the year. The Collector of the district was the President of the 6 District Boards, and the Assistant and Deputy Collector, of the 40 Táluka Local Boards. The elective franchise has been conferred upon all the Local Boards but those in the Panch Mahâls owing to its backward condition.

5. Of the total number of the members on the Boards, 186 were officials and 542 non-officials against 182 officials and 546 non-officials in the preceding year. There were 36 Europeans and Eurasians and 692 natives against 38 Europeans and 690 natives last year.

6. The triennial terms of Táluka Boards of the districts noted in the margin, which expired on the dates mentioned against each, were extended, in accordance with the orders contained in paragraph 2 of Government Resolution No. 2215, dated 13th June 1894, so as to make them coterminous with the financial year. But in the Surat District this was not possible, as the triennial elections had been nearly completed on the date of the receipt of the orders referred to; and in the Panch Mahâls the Boards had already been reconstituted.

District.	Date of expiry of the triennial term.
Ahmedabad	31st October 1894.
Kaira	30th September 1894.
Thâna	31st October 1894.

7. The following table shows the interest evinced in the elections in the several districts concerned :—

Elections.

8. It will be seen that except in Párdi and Máhim there was considerable competition for seats, the number of candidates in some instances being very large, particularly in the Thána District. But the small proportion of electors who came to the poll is very marked in all districts; only in 5 tálukas, *viz.* Modása, Kapadvanj, Sálsette, Bassein and Máhim, did more than 50 per cent. of the voters exercise their franchise. Of the remaining tálukas, in 18 more than 33 per cent., in 3 more than 25 per cent. and in 6 less than 25 per cent. came to the poll.

Meetings.

9. The following table shows the number of meetings held in each district, the number of official and non-official members on the Boards, and the average attendance :—

Meetings.

10. The number of meetings held by the several Boards was 233 during the year against 223 in the preceding year.

Attendance.

11. There was only a slight variation in the attendance of official members as compared with the previous year. The same may be said with regard to the non-official members, but all districts except Broach show improvement.

12. The District Local Boards held 19 meetings against 15 in the preceding year. The number of meetings and average attendance were as per margin in each district. The attendance of members has fallen off in Thána and Kaira, while there was slight improvement in the Panch Maháls, Broach and Surat. Ahmedabad remains almost stationary. The attendance of the members in Thána compares favourably with the remaining districts. The orders regarding the holding of half-yearly meetings were complied with in all districts.

STATEMENT No. II.

13. The total income of the several Local Boards amounted to Rs. 11,34,765-13-5 against Rs. 12,98,112-13-5 of the last year, showing a decrease of Rs. 1,63,347. Adding to the total income the balance of Rs. 8,93,741-2-10 at the commencement of the year, the sum available for expenditure during the year was Rs. 20,28,507-0-3 against Rs. 21,42,155-2-11 in the preceding year.

14. The principal items of income are shown in the following table:—

Heads.	1894-95.			1893-94.		
	Rs.	a.	p.	Rs.	a.	p.

Debt	1,370	0	0	2,647	0	0

15. *I.—Land Revenue.*—The receipts under this head are made up of miscellaneous fluctuating items such as sale-proceeds of grass, trees, &c. The increase of Rs. 542-8-2 as compared with the previous year does not call for remarks.

16. *VI.—Provincial Rates.*—The principal source of income under this head is the one-anna cess levied on the land revenue under Bombay Local Fund Act of 1869. The following table shows the proportion of income derived from this source and its incidence per head of population :—

District.	Total Income.			Revenue derived from One-Anna Cess.			Percentage of Column 3 to Column 2.	Incidence of One-Anna Cess per head of Population.

Total ...	11,34,765	13	5	6,30,744	1	8	55·4	0	2	7

17. There was an aggregate decrease of Rs. 1,41,676-4-5 in all the districts except Kaira, which shows an increase of Rs. 6,640-9-3 in consequence of the revision settlement having been introduced during the year into parts of the district. The largest decrease amounting to Rs. 1,17,716 is in Broach and is due to instalments of land revenue which fell due during the year having been deferred for collection to the following year. The decrease of Rs. 10,801 in Ahmedabad and Rs. 12,618 in Surat is ascribed to the same cause. The decrease in the Panch Mahâls and Thâna is small and is due to a slight fall in the land-revenue demand

18. *XIX.—Education.*—The variation under this head as compared with the past year amounts to only Rs. 3-11-9.

19. *XX.—Medical.*—The receipts under this head amounted to Rs. 14,391-3-0 against Rs. 5,105-1-3 last year. The increase, Rs. 9,286-1-9, was contributed by the following District Local Boards:—

	Rs.	a.	p.
Ahmedabad	104	0	0
Kaira	1,481	12	1
Panch Mahâls	288	7	8
Broach	3,718	9	1
Surat	1,987	12	10
Thâna	1,705	8	1
	9,286	1	9

The large increase of Rs. 9,286-1-9 under this head is due to the transfer of the Dispensary Funds to Local Funds under the orders of Government, and is common to all districts.

20. *XXXII.—Civil Works.*—Receipts from ferries and tolls and private contributions are credited to this head, and the total income was Rs. 1,91,624-0-9 against Rs. 1,94,789-12-8 last year, showing a decrease of Rs. 3,165-11-11, which is principally due to smaller contributions having been received.

Toll collections.

21. There was an aggregate increase of Rs. 11,629-13-0 in Ahmedabad and Thâna against an aggregate decrease in the remaining districts. Surat is the largest contributor to the latter item in consequence of the reduction of the rates of tolls on the Hope Bridge across the Tâpti as sanctioned in Government Resolution No. 13-A 15, dated 29th March 1894.

Contributions under XXXII.—Civil Works.

22. The decrease under "Contributions" occurs again this year chiefly in Surat and is stated by the Collector to be due to the Board's inability to undertake new works for want of funds.

Contributions.

23. The decrease under this head amounts to Rs. 33,720-4-10 as compared with the previous year. It was common to all districts, but the decrease is largest in Thâna owing to the fact that by some error the grant for water-supply was not availed of during the year and also to less receipts on account of sand and quarry fees. Broach also shows a large decrease in consequence of smaller allotments on account of water-supply and school buildings having been made by Government. The receipts under this head are composed of the following items:—

District.	Fees for permission to remove sand or to quarry.	Fixed contributions in lieu of one-anna cess on excise revenue.	Government grant for village sanitation and water-supply.	Government grant for primary education.	Fisheries fees and fines.	Government grant towards the construction of school buildings.	Government grant towards the construction of roads or other public works.	Total.

*Exclusive of Rs. 86-13-11 on account of contributions from other Boards.

24. *XXV.—Miscellaneous.*—The receipts under this head amounted to Rs. 2,109-4-5 against Rs. 4,071-10-11 in the preceding year and consisted of the following items:—

	Rs.	a.	p.
Sale of old stores, &c.	321	11	7
Staging bungalow fees	1,262	12	10
Serai fees	238	5	6
Other items	286	6	6
	2,109	4	5

The decrease occurred principally under "Other items," which are of a fluctuating nature, and call for no explanation.

25. *Cattle-pound Receipts.*—The receipts under this head amounted to Rs. 26,322-5-5 against Rs. 28,026-5-3, or a net decrease of Rs. 1,703-15-10, which is distributed over all the districts except Panch Mahâls and shows that a smaller number of cattle has been impounded during the year.

26. *Debt.*—The increase under this head being small calls for no explanation.

27. The incidence of income per head of population in the several districts of this Division is as under:—

Statement No. III.

Expenditure.

28. The total expenditure during the year amounted to Rs. 13,25,413-15-2 as compared with Rs. 12,48,414-0-1 in the previous year. The following table shows the principal items of expenditure during the year as compared with the last year:—

Heads.	Expenditure during 1894-95.			Expenditure during 1893-94.			Increase.			Decrease.

						Net increase ...	72,640	11	7			

29. *Administration.*—The expenditure under this head amounted to Rs. 27,971-3-4 or Rs. 3,623-8-3 less than that incurred in the previous year. The expenditure under head "18. Administration" includes, as usual, charges on account of establishments entertained by the several Local Boards under Section 38 of the Local Boards Act, as also the pay and allowances of clerks employed on Local Fund work in the offices of the Divisional Commissioner, the Collectors, the Accountant General and the Educational Inspectors. The largest decrease (amounting to Rs. 4,125) occurs in the Thâna District, and it is explained that it is due to the contributions on account of establishments in the Collector's and Commissioner's offices not having been recovered during the year from the District Local Board in consequence of the demand for the same having been communicated too late in the year.

30. *Education.*—The total expenditure under this head (Rs. 4,02,052-14-0) exceeded that of the previous year (Rs. 3,81,230-3-6) by Rs. 20,822-10-6. The details of the expenditure are given below :—

	1894-95.			1893-94.		
	Rs.	a.	p.	Rs.	a.	p.
Middle Class Schools	405	0	0	324	0	0

Miscellaneous and Refunds ...	92	11	2	3,676	0	0
Total ...	4,02,052	14	0	3,81,230	3	6

The increase is distributed over all the districts except Thána. The chief contributor is Ahmedábad, where Rs. 14,398 were paid to the Municipalities under Section 45 to meet the additional charges incurred in consequence of the pay of the teachers being raised in accordance with the wishes of Government, and a further sum of Rs. 10,000 having been paid to the Gujarát College Fund for the construction of student quarters in the College building. The decrease in Thána is nominal, as a large refund of an item wrongly credited to the Local Funds was made last year to the Municipality of Bhiwndi.

31. *Medical.*—The charges under this head consist of the following items :—

	1894-95.			1893-94.		
	Rs.	a.	p.	Rs.	a.	p.
Grants to hospitals and dispensaries ...	38,644	12	2	28,102	12	9
Vaccination establishment and charges ...	20,053	0	3	20,087	7	11
Sanitation charges	1,253	7	0	587	5	5

The net increase of Rs. 11,173-9-4 is distributed over all the districts, but Surat, Broach and Thána Boards are the chief contributors. The increase amounting to Rs. 3,767 in the Thána District and Rs. 1,988 in the Surat District is due to the transfer of the Dispensary Funds to the Local Boards. In Broach the increase of Rs. 1,715 is attributed to larger expenditure incurred on vaccination, Dispensary establishment and sanitation charges.

32. *Scientific and other Minor Departments.*—The following are the details of expenditure incurred under this head as compared with the previous year :—

	1894-95.			1893-94.		
	Rs.	a.	p.	Rs.	a.	p.
Experimental cultivation	.....			28	5	6
Veterinary charges ...	2,723	0	2	1,300	0	0
Bull and stallion charges ...	1,086	13	7	1,090	2	2
	3,809	13	9	2,418	7	8

The increase is principally due to the contributions made by the Kaira and Surat District Local Boards to the Veterinary Hospitals.

33. *Stationery and Printing.*—The expenditure under this head includes charges for stationery purchased for office use and printing forms, &c. The total amount expended during the year is Rs. 2,669-1-5 against Rs. 2,672-4-6 last year.

34. *Miscellaneous.*—Charges on account of dharmshála and staging bungalow establishments, petty establishments maintained by Local Boards and contributions to Municipalities under Section 47 of the Local Boards Act are included under this head. The decrease of expenditure occurred principally in Surat, and the Collector explains that it is due to the greater part of the contributions from rayats having been refunded during the previous year in consequence of there being no immediate prospect of the works being proceeded with.

35. *Civil Works.*—The total expenditure under this head amounted to Rs. 7,72,209 against Rs. 7,24,000 in the preceding year. The charges represent 58·2 per cent. of the total expenditure during the year as against 58·1 per cent. in the previous year. The principal items comprised in this head are detailed below :—

39. Under the head "Water Works and Water-supply" the expenditure amounted to Rs. 1,75,726 against Rs. 1,77,947 in the preceding year. Details will be found in Statement No. IV.

Contributions to other Boards.

40. The expenditure under this head amounted to Rs. 5,545-11-6 against Rs. 8,081-12-11 in the preceding year. The decrease principally occurred in the Thána District, and it is explained that it is owing to the Municipalities not having claimed the amounts due to them under Section 47 of the Local Boards Act.

Debt.

41. The amount under this head is made up of the instalment of the Hope Bridge Loan paid by the District Local Board, Surat, and repayments of contractors' deposits.

Interest on debt.

42. This item represents the amount of interest paid by the Local Boards of Ahmedabad and Surat on the balance of loans advanced to them.

Balance.

43. The actual balance at the end of the year was Rs. 6,96,014-12-9 against Rs. 8,93,741-2-10 at the end of the preceding year; adding deposits, the balance at the credit of the several Local Boards was as under :—

	1894-95.			1893-94.		
	Rs.	a.	p.	Rs.	a.	p.
Ahmedabad...	1,42,633	13	4	1,40,371	10	6
Kaira	1,31,587	9	8	1,53,869	12	4
Panch Mahâls	55,032	2	11	66,948	0	10
Broach	1,23,834	14	4	2,42,221	6	8
Surat	1,69,861	5	10	2,34,782	12	0
Thâna	84,452	8	6	66,529	11	6
Total ...	7,07,452	6	7	9,04,723	5	10

It will be seen that the balances have been considerably reduced in Broach and Surat, in which they were abnormally large. The question of maintaining a sufficiently large balance in each district so as to prevent Local Boards overdrawing their account with Government, and the measures to be taken for the expenditure of the remaining funds, have engaged the attention of the several Boards, and a special report on the subject was submitted to Government under this office No. 2729, dated 15th July 1895.

Statement No. IV.

44. The following is a brief abstract of the expenditure incurred in the different districts on village sanitation:—

45. The following are the details of the expenditure on the improvement of water-supply:—

Out of the total expenditure of Rs. 1,75,726-10-1. on water-supply, Rs. 25,951-2-2 were spent on the construction of 38 new tanks, while Rs. 72,333-4-4 were expended on 271 new wells and troughs. The expenditure on improving the existing sources of water-supply amounted to Rs. 77,442-3-7.

It will be seen that expenditure on the improvement of village sites, &c., was incurred in the Panch Mahâls and the Thâna districts, and that Rs. 257-1-0 were expended in the latter district on conservancy. From the Collectors' administration reports which are now passing through this office it appears that as usual a good deal of attention has been paid to the destruction of rank vegetation and the removal of manure heaps from the vicinity of sources of water-supply. The efforts made in this direction are entirely due to the exertions of the district officers, and no expenditure from Local Boards has been found to be absolutely necessary.

46. As required by Government Resolution No. 779, dated 30th January 1890, I beg to submit herewith the notes of the several Executive Engineers in this Division showing the original cost, mileage and present condition of the Local Fund roads in their charges.

47. In accordance with the orders of Government in paragraph 15 of their Resolution No. 3179, dated 30th July 1895, I give below a brief review of the progress made during the year in material improvements as also lists of the more important works undertaken.

Ahmedabad.—No large new works were undertaken by the District Local Board, Ahmedabad. Rs. 19,125 (exclusive of Public Works Department establishment charges) were expended on the construction of the road from Ahmedabad to Bareja which has been in progress since the year 1888-89. The total expenditure on this work up to the end of the year 1894-95 amounts to Rs. 95,646. The work of improving the road from Dhandhuka to Tágdi has also been in progress since 1887-88. The amount expended on it during the year is Rs. 1,951, and the total amount expended up to the end of the year is Rs. 20,365. The construction of a causeway across the Bhogawa river between the Phedra bridge and Gundi estimated to cost Rs. 3,825 was undertaken during the year, and a sum of Rs. 1,898 was expended on it. The work is in progress, and, it is hoped, will be completed during the current year. Besides the above, Rs. 31,106 were spent on repairs to several important roads during the year. The District Local Board have to spend a large amount on road repairs, and until the construction of the Ahmedábad-Bareja road is completed, no other large new works can be undertaken; it is hoped that it will be finished before very long. The total expenditure on water-supply amounted to Rs. 19,337-9-10. Seven new tanks and 34 wells and troughs were constructed during the year at a cost of Rs. 10,591-12-3.

Kaira.—The following works of importance were carried on during the year 1894-95:—

(1) Metalling of the Nadiád-Kapadvánj road. This work has been in progress for some years past, and a sum of Rs. 23,104 was spent on it during the year. The balance of the estimate amounts to Rs. 24,290, and when the full amount is spent, the metalling of the whole road 27 miles in length will be completed.

(2) Additions to the Civil Hospital at Kaira. A sum of Rs. 5,872 was spent on the work during 1894-95, and in all Rs. 9,186 up to the end of the year. An expenditure of a further sum of Rs. 541 during the current year 1895-96 will result in the work being completed.

(3) Enlarging the school-house at Sarsa in the A'nand Táluka. A sum of Rs. 3,747 was spent on this work out of an estimate of Rs. 4,379 for it. The work will be completed during 1895-96.

(4) Road from Petlád to Cambay, on which a sum of Rs. 314 was spent during the year, has been completed; but only a very small portion is in British territory, and the road has practically been made by the Cambay Darbár.

Besides the above works the Local Boards of the district spent Rs. 53,606 in repairing and maintaining existing main roads and improving village cart tracks. 31 new wells were also built during the year, and 88 existing sources of water-supply repaired. Three new school-houses were also built.

*Panch Mahál*s.—The expenditure of the several Boards amounted to Rs. 81,492-9-1. The increase of Rs. 13,454-13-0 over last year's figures is due to the fact that several new works of public utility in the shape of roads, buildings and water-supply were undertaken. Some of the more important of these works were :—

(1) The metalling of the Godhra-Shera road (railway feeder).

(2) The metalling of the Godhra-Rámpura road (railway feeder).

(3) Construction of the road from the Railway Station to Dohad town.

(4) New dharmshála at Khandia on the Shera road.

Considerable progress was made during the year in improving the water-supply. With the help of the Government grant, the Board was able to construct 23 new wells at a cost of Rs. 5,699 and to execute repairs to 26 tanks and 28 wells, the total cost amounting to Rs. 9,053.

Broach.—The most important works undertaken by the District Board during the year 1894-95 were the following :—

1. A bridge over the Khandali Nála on the Derol-Vágra road.

2. Metalling the Broach-Jambusar road, miles 3 to 11.

3. Metalling the first two miles of the road from Anklesvar to Borebhatha.

The Collector remarks that while the Táluka Boards steadily do their best to improve the water-supply in villages, the District Board had, until the year under report, done very little to improve communications. Vágra remains practically inaccessible in the rains, and the broken bridge over the Kim on a thoroughfare between Broach and Surat continues unrepaired. The excuse for past inaction is that it is very difficult to decide what to do. Theoretically the Broach-Jambusar road ought to be metalled along its whole length of 30 miles; but the cost of this and of the annual repairs would leave very little for the other roads urgently wanted; and should a company be formed to take the road for a light railway, the whole of the expense of metalling will be thrown away. The cost of a metalled road from Derol to Vágra with bridges would also be enormous, and the re-building of the Kim bridge has been delayed by the refusal of the Surat Board to make any contribution. The Board has now, however, made up its mind to spend substantial sums on the improvement of the communications between Broach and Vágra, A'mod and Pálej, and Broach and Sukaltirth; and if the Surat Board consent to give the very moderate assistance asked from it, the Kim bridge will also be undertaken. This is a forecast rather than a record of progress; but the actual record for the year under report, involving as it does an expenditure of about Rs. 40,000 on main roads alone, is not contemptible.

Surat.—The total expenditure during the year under report amounts to Rs. 3,20,445, which shows an increase of Rs. 23,463 over last year. One dharmshála at Gaudewa, táluka Chikli, and 4 new school buildings—2 in Jalálpor, 1 in Mándvi and 1 in Chorási Táluka—were constructed during the year under report. No new main road worth noticing was undertaken during the year. Those taken in hand in previous years, *viz*:—

The bridge over Kanai Khádi in the Jalálpor Táluka and a low-level bridge over the Vánki river have been undertaken at a cost of Rs. 14,252 and Rs. 3,056 respectively during the year. Both bridges will be of great convenience to the public

and are nearly completed. The Walandi bridge constructed at the cost of the Rája of Dharampor and the bridge at Un constructed by the Board have been opened for public use during the year. The expenditure on constructing new wells and tanks and improving the existing sources of water-supply amounted to Rs. 46,399-0-3. 15 new tanks and 72 new wells and troughs were constructed at a cost of Rs. 30,975-6-3 during the year throughout the district.

No. R.—3563 of 1895.

From

The Honourable Mr. J. K. SPENCE,
Commissioner, C. D.;

To

The SECRETARY to GOVERNMENT,
General Department,
Bombay.

Poona, 31st August 1895.

Sir,

I have the honour to submit the annual report on the administration of the Local Boards in the Central Division for the year 1894-95, together with the usual statistical Statements I to IV compiled in the prescribed form.

Statement I.—Constitution of the Boards.

2. The constitution of the Boards remained unchanged during the year under report, there being, as in the previous year, 6 District Boards and 65 Táluka Boards. The total area and the total population for the Division also remained unchanged. But owing to the transfer, under the orders of Government, of the village of Dhamandhar from the Báglán Táluka of the Násik District to the Pimpalner Táluka of the Khándesh District, there is a decrease in the area and population under the Báglán Táluka Local Board, and also in the total area and population under the Násik District Local Board, of 4·7 square miles and 86 souls respectively, and a corresponding increase in the area and population under the Pimpalner Táluka Local Board and in the total area and population under the Khándesh District Local Board. Similarly, owing to the transfer of 7 villages from the Peint to the Kalvan Táluka of the Násik District, the area and population under the Kalvan Táluka Local Board show an increase, and those under the Peint Táluka Local Board a decrease, of 23 square miles and 1,453 souls respectively. The population under the Haveli Táluka Local Board, in the Poona District, shows an increase of 172,341 owing to the correction of an error which had crept into the reports for previous years. This correction, however, does not affect the total population under the Poona District Local Board. Of the total number of members, 6 are *ex-officio*, 638 nominated, and 565 elected. The number of official and non-official members is 249 and 960 respectively against 255 and 954 in the preceding year. The variations are due to vacancies arising from the resignation, &c., of official members having been filled by the appointment of non-officials.

3. The following table shows the number of meetings held in each district, the number of official and non-official members on the Boards, and the average attendance of members at meetings :—

Districts.	Number of Meetings.	Members.			Average Attendance.		
		Official.	Non-official.	Total.	Official.	Non-official.	Total.
Ahmednagar	73	51	151	202	2·46	6·10	8·57
Khándesh	96	54	243	297	3	5	8
Násik	66	50	161	211	2·5	6·1	8·6
Poona	50	32	123	155	2·18	6·88	9·06
Sátára	66	42	166	208	2	7	9
Sholápur	36	20	116	136	1·88	5·99	7·87
Total ...	387	249	960	1,209	2·3	6·1	8·5

4. The total number of meetings held in the year was 387 against 390 the previous year. The provisions of the law regarding the holding of half-yearly meetings were complied with by all the District and Táluka Local Boards.

5. As compared with last year the average attendance of official members has remained the same in the Sátára District, improved in Khándesh and Nasik, and declined in the remaining three districts. The average attendance of non-official members has remained the same in the Násik District, improved in the Ahmednagar and the Sátára districts, and declined in the remaining three districts.

6. On the whole, the average attendance for the Division remains practically unchanged.

7. The average attendance of official and non-official members shown against each District and Táluka Local Board has been obtained by dividing the total number of members present at all the meetings held by the total number of meetings. The average attendance for a district has been deduced by adding up the averages for all the Boards in that district and dividing the total by the number of Boards.

Statement II.—Income.

8. The total income of the several Boards from all sources amounted to Rs. 14,55,777-8-4 against Rs. 14,46,538-10-10 in the preceding year, showing an increase of Rs. 9,238-13-6. Adding to the total income the balance of Rs. 9,49,179-5-2 at the commencement of the year, the sum available for expenditure during the year was Rs. 24,04,956-13-6 against Rs. 23,56,965-10-0 the previous year. The following table shows the income under the various heads in the year under report and the previous year :—

		Net Increase ...	9,238 13 6	

9. *I.—Land Revenue.*—The receipts under this head represent the sale-proceeds of trees, grass, &c., the total realizations on account of which amounted to Rs. 2,374-7-8 against Rs. 2,161-7-3 the previous year. The items are always of a fluctuating nature, and the small increase needs no explanation.

10. *VI.—Provincial Rates.*—The income under this head is derived from the net proceeds of the one-anna cess levied under the Bombay Local Funds Acts, and constitutes the principal source of revenue. The total realizations compared with the figures of the past year show an increase of Rs. 3,269-3-4. The following table shows the proportion of the net receipts from the one-anna cess to the total income and the incidence of the cess per head of population :—

Year.	Total Income.	Net Revenue derived from One-anna Cess.	Percentage of Column 3 to Column 2.	Incidence of One-anna Cess per head of Population.

1893-94	14,46,538 10 10	8,14,173 5 6	56 3 0	0 2 1

The increase in the receipts has taken place in the districts of Ahmednagar, Násik, Poona and Sátára, and is due mainly to the introduction of revised survey rates.

11. *XII.—Interest.*—The receipts under this head are on account of interest on Government Securities belonging to dispensaries. The total amount is Rs. 194-15-8, of which Rs. 105-3-2 belong to the Násik District and Rs. 89-12-6 to the Sholápur District.

The increase is noticeable in the districts of Násik, Poona, Sátára and Sholápur, and is due to increased receipts from cattle-pounds.

13. *XIX.—Education.*—The income under this head fell from Rs. 50,609-13-5 to Rs. 46,917-8-8. The decrease has occurred in all the districts except Sátára, where the amount of school-fees and contributions has increased. The total receipts are made up as follows :—

STATEMENT IV.

35. The following table shows for each district the total expenditure incurred under the different heads for the improvement of village sanitation :—

* In addition to this amount, the District Local Board of Sátára pays a yearly contribution of Rs. 5,000 to the Sátára Municipality towards the water-supply scheme.

36. The amount spent on the improvement of water-supply in the Division was Rs. 97,431-5-11 against Rs. 1,15,097-12-9 last year, showing a decrease of Rs. 17,666-6-10. The decrease is noticeable in all the districts except Poona, where the expenditure has increased by more than 3,000 rupees. The largest expenditure was in Khándesh and the smallest in Poona. Of the total expenditure, Rs. 76,648-3-3 were spent on the construction of original works such as tanks and wells, and the balance of Rs. 20,783-2-8 on improvement to the existing sources of supply.

Rs. 242-11-10 were spent on the improvement of village sites in the Poona District and Rs. 1,347-2-11 in all were spent in removing prickly pear in 1 village in Násik, in 10 villages in Poona and in 13 villages in Sholápur. The items under the other heads in the statement are trifling and call for no remark.

37. I regret that it has not been found possible, as required by paragraph 15 of Government Resolution No. 3179, dated 30th July 1895, to insert in this report a brief chapter reviewing the progress made in material improvements by the several Local Boards in the Central Division, with a description of the more important works undertaken by them. The orders were received rather late, and though the Presidents of the several District Local Boads have, in reply to my request, submitted a certain amount of information, it is in most cases either too vague or a mere recapitulation of the salient figures in the report, in no way calculated to give the desired colouring and interest to the report. The chapter will, therefore, appear in future reports.

38. As required by Government Resolution No. 779 dated 30th January 1890, I append notes, in original, received from the Executive Engineers showing the original cost, the mileage, and the present condition of the Local Fund roads in their respective charges.

I have the honour to be,

FROM

E. J. EBDEN, ESQUIRE, I. C. S.,
Acting Commissioner, S. D.

To

THE SECRETARY TO GOVERNMENT,
General Department,
Bombay.

Belgaum, 24th September 1895.

SIR,

I have the honour to submit the Annual Report on the Administration of the Local Boards in the Southern Division for the year 1894-95, together with Statements I to IV.

STATEMENT I.

2. The number of Local Boards is the same as in the preceding year, *viz.* 6 District and 50 Táluka Local Boards. The area and population given are according to the Imperial Census of 1891. The number of members serving on the Boards has fallen from 900 to 898; the decrease of 2 being due to vacancies on the Táluka Local Board of Vengurla remaining unfilled at the close of the year under report. Of the total number of members on the Boards, *viz.* 898, 214 are official and 684 non-official; the corresponding figures for the preceding year having been 202 and 698. The number of European members on the Boards shows an increase of 3.

3. The number of meetings held by the several Boards was 360, against 322 in 1893-94. Eighteen of the meetings were held by the District Boards, and the remaining 342 by the Táluka Boards; the corresponding figures for the previous year being 20 and 302. The rule requiring the District Boards to hold half-yearly meetings was duly observed by all of them. The average attendance at their meetings is given in the following statement :—

District Board.	1894-95.		1893-94.	
	Total number of members.	Average attendance.	Total number of members.	Average attendance.
Belgaum	19	13·5	19	12·0
Bijápur	19	8·4	19	10·9
Dhárwár	31	13·5	31	14·6
Kánara	17	11·0	17	8·6
Kolába	17	10·5	17	11·0
Ratnágiri	21	10·0	21	8·8

Three of the 6 Boards, *viz.* those of Belgaum, Kánara and Ratnágiri, show an improvement as compared with the preceding year, and in Belgaum, Kánara and Kolába the attendance was fairly satisfactory, while in the other three districts it did not reach 50 per cent. of the members. As regards the Táluka Local Boards, the attendance was fair, being, on the whole, one-half of the total number of members on the Boards.

4. The average attendance at each meeting for the whole Division, as well as for each district, for the year under report and for 1893-94, is given in the subjoined statement :—

District.	1894-95.		1893-94.	
	Official.	Non-official.	Official.	Non-official.
Belgaum	3·14	5·73	2·83	4·73
Bijápur	2·06	5·38	1·9	6·3
Dhárwár	2·05	6·03	2·12	6·05
Kánara	2·03	4·87	1·5	4·6
Kolába	1·74	7·10	1·6	7·1
Ratnágiri	1·2	6·04	1·4	5·8
Southern Division	1·97	5·74	1·87	5·76

The process by which the average for the districts and for the Division is worked out has already been explained in last year's report. The results for the Division, as exhibited in the above statement, show a slight improvement over the year 1893-94 in regard to official members; but in regard to non-official members some deterioration is observable.

5. The fourth triennial elections of the Local Boards were held during the year under report. The elective franchise has been conferred on all the Boards, except those of the tálukas of Honávar, Ankola, Siddápur, Sirsi, Yellápur and Supa; from these it has been withheld because of the backward condition of the people. The results of the elections are given in the table below:—

6. In the Belgaum District, the total number of persons entitled to vote was 7,476, of whom 3,133, or 41·9 per cent. of the total number, went to the poll. The percentage was highest (58·1) in the Gokák Táluka as on the last occasion, and the smallest (31·2) in Belgaum, although it is the head-quarters táluka. In the Khánápur Táluka of the same district, in 3 out of the 6 groups, *viz.* Nandgad, Khánápur and Bidi, no candidates came forward for election and consequently no votes were recorded. The three vacancies were filled by the appointment, with the approval of Government, of three persons selected by the Collector under para. 3 of Section 24 of Bombay Act I of 1884.

In the Bijápur District, the total number of persons entitled to vote was 5,733, of whom 3,204, or 55·8 per cent., recorded their votes. Here again the percentage was lowest (39) in the head-quarters táluka of Bijápur, while the highest (72·4) was reached in the Hungund Táluka.

In the Dhárwár District, out of a total number of 12,769 persons having the right to vote, 7,085 or 55·4 per cent. exercised the privilege. The percentage was highest (73·09) in the Ron Táluka and lowest (45·03) in the Hubli Táluka.

In the Kánara District, out of 657 persons possessing the franchise, 308 or 46·8 per cent. made use of it.

In the Kolába District, out of 4,227 persons who were entitled to vote, 1,970 or 47 per cent. voted at the polls. The percentage was highest in the Panvel Táluka (62·8) and lowest (28·1) in the Pen Táluka.

In the Ratnágiri District, out of 5,853 voters, 1,810, or 30·9 per cent., actually exercised the privilege at the polls. The percentage was highest in the Dápoli Táluka (40·6) and lowest (21·8) in the Devgad Táluka. This is the only district where in more than half the tálukas the percentage of voters was less than one-third.

7. The dates on which the new Boards in each district commenced their terms of office are given below:—

Statement II.

8. The year opened with a divisional balance of Rs. 6,28,614-12-1. The table given below compares the receipts of the year under report with those of the year preceding under the several heads of income. The receipts show a net increase of Rs 22,384-15-3 which is attributable to Rs. 20,000 having been drawn during the year by the Dhárwár District Local Board as the first instalment of the loan granted by Government by Government Resolution (Financial Department) No. 1043, dated the 26th March 1895.

		Net increase ...	22,384 15 3	

The variations under the several heads are explained below:—

I.—Land Revenue.—The income under this head consists of the sale-proceeds of trees and grass, &c. The decrease of Rs. 268-12-2 needs no explanation, as this kind of revenue is always of a fluctuating nature.

VI.—Provincial Rates.—The realizations under this head consist of the net proceeds of the one-anna cess. The rise of Rs. 4,293-9-5 was mainly the result of the introduction of revision settlement in Alibág and Pen tálukas.

XVII.—Police.—The receipts under this head represent the net proceeds of the working of the Cattle Trespass Act. The decrease of Rs. 5,888-5-10 has been shared by all the districts except Kánara, which shows an increase of Rs. 555-7-3. The decrease is due partly to a smaller number of cattle impounded and partly to increased expenditure on cattle-pounds.

XIX.—Education.—The revenue realized under this head is exclusive of the ⅓ share of the proceeds of the one-anna cess. The decrease (Rs. 2,762-5-6) is due mainly to a decrease in the receipts of the workshop branch of the School of Industry at Ratnágiri, which has been occasioned partly by a falling off in customers and partly by the fact that an order from the Public Works Department had to be refused for want of timber. The latter misfortune will not occur again, as Government have already authorized the Forest Department to

issue wood to the institution on credit. The details of the educational receipts are as follows :—

	Rs.	a.	p.
(*a*) Fees from the students of the Drawing Class in the School of Industry at Ratnágiri ...	96	0	0
(*b*) Fees from boys attending Local Boards' secondary schools in the Belgaum and Dhárwár Districts	244	0	0
(*c*) Fees from children attending the Local Boards' primary schools ... ... (against Rs. 58,910-13-1 in 1893-94.)	61,332	3	6
(*d*) Contributions, both Municipal and popular, towards the maintenance of Local Board primary schools	50	14	0
(*e*) Miscellaneous receipts chiefly made up of the earnings of the Workshop Branch of the Ratnágiri School of Industry ...	7,728	7	10
Total ...	69,451	9	4

XX.—Medical.—The amount shown under this head is chiefly made up of Hospital and dispensary receipts, sanitary fees and fines and contributions, &c. The large increase of Rs. 10,069-10-4 under this head is due to the transfer of Dispensary accounts from Excluded to Incorporated Local Funds. The Kánara District alone contributes one-half of this increase, the other half being shared by the other districts.

XXI.—Scientific and other Minor Departments.—The receipts under this head occur only in the Bijápur District and are quite insignificant, being six annas and ten pies realized as veterinary receipts. The large decrease of Rs. 291-15-5 is mainly due to the absence, during the year of report, of the exceptional item of Rs. 223-14-3 realized last year from the sale of articles belonging to the Agricultural Farm at Belgaum which was closed in 1893-94.

XXV.—Miscellaneous.—The decrease of Rs. 1,633-11-9 needs little or no explanation, as the items of revenue under this head are of a fluctuating character, such as staging bungalow fees, serái fees, produce of fruit trees, &c.

XXXII.—Civil Works.—The net decrease (Rs. 7,532-14-1) under this head has occurred principally in the Kánara District under the minor heads "Tolls and Ferries" and "Contributions." The total revenue of Rs. 1,36,281-12-11 under Civil Works in charge of Civil officers was made up of the following tems:—

(1) Rs. 98,206-8-0—Tolls on ferries and roads.
(2) „ 451-8-6—Rent of Local Boards' lands and buildings.
(3) „ 81-0-0—Sale-proceeds of Local Boards' buildings and other property.
(4) „ 182-0-9—Sale-proceeds of stores and materials.

(*c*) Under the sub-head 'Miscellaneous Public Improvements' Rs. 1,540-7-6 were expended on original works (of this, Rs. 362 are on account of the removal of prickly-pear in the Belgaum District, Rs. 409-14-0 on account of latrines erected at Dharamtar, and Rs. 99-14-0 on account of sluices for the protection of the dam at Wadháo in the Pen Táluka of the Kolába District); similarly Rs. 430-4-1 were spent through the Civil Agency on repairs to piers, dams, &c., and on other improvements, a part of the expenditure being incurred in the Ratnágiri District in burning lights on the top of the Devgad ghát and in the Talaode and Jaigad dharmshálas: in the Dhárwár District Rs. 319-1-4 were spent through the Public Works Agency on current repairs to the ferry boats at Hesrur (Rs. 215-11-5), and at Konnur (Rs. 103-5-11).

(*d*) Rs. 15,822-15-7 were spent on the salaries and travelling allowance of overseers, maistries, &c., entertained by the Boards themselves, and Rs. 27,674-2-0 were paid by the Boards to the Public Works Department on account of establishment charges, the corresponding figures of the previous year having been Rs. 15,297-9-6 and Rs. 29,586-15-0. The increase in the first of the two former items is due mainly to the pay of an overseer in the Bijápur District having been raised from Rs. 80 to Rs. 100.

(*e*) The tools and plant purchased for the use of the Local Boards establishments and the Government Public Works establishments cost Rs. 1,920-14-9 and Rs. 3,653-6-0 respectively.

(*f*) The expenditure on water-works amounted to Rs. 1,38,767-14-9 against Rs. 89,312-2-7 in 1893-94. Fuller details are given in my remarks on Statement IV (para. 12).

(*g*) No drainage works were executed in any of the districts of the Southern Division.

(*h*) "Planting and preservation of road-side trees" was attended to in all the districts of the Division, and the charges on this account aggregated Rs. 7,299-10-8 against Rs. 7,674-12-9.

Contributions.—Contributions "to Provincial" and those "to other Boards" amounted to Rs. 10,731-13-9 and Rs. 11,177-6-1 respectively against Rs. 16,883-1-11 and Rs. 200 in the preceding year. The details of the Provincial contributions are given in the table below :—

The above table shows a decrease of Rs. 6,151-4-2, which is due mainly to a grant of Rs. 6,000 having been made in 1893-94 by the District Local Board, Bijápur, towards the new Government high school there.

Debt, and Interest on Debt.—Out of the total amount shown under Debt, Rs. 2,873-1-11 represent the amount paid by the District Local Board, Bijápur, in liquidation of the loan of Rs. 50,000 granted by Government to that Board in 1876-77 to meet expenditure on the Begum Tank at Bijápur; Rs. 4,097-8-6 are on account of repayment of the loan granted to the Ratnágiri District Local Board by Government for the construction of the Amba-ghát and subsidiary roads; and the balance of Rs. 3,000 is on account of the grant by the Kolába District Local Board to the Pánvel Municipality for its water-works. As Government declined to sanction the grant, the money was recovered, and the item has been treated under 'Advance'.

The aggregate amount paid on account of interest was Rs. 2,955-7-3, of which Rs. 944-9-9 and Rs. 2,010-13-6 were paid by the Bijápur and Ratnágiri District Local Boards respectively on account of the above-mentioned loans.

Balances.—The total balances, exclusive of the amounts of permanent advances, to the credit of the several Boards in the Division amounted to Rs. 6,05,728-0-0 (*i.e.* to slightly over 50 per cent. of their annual income) against Rs. 6,28,614-12-1 in the preceding year. The Accountant General has verified the balances, and the necessary adjustments in Statements II and III have been made.

The following table gives the details regarding the income and closing balance of each district for the last two years:—

Progress towards carrying out the orders of Government contained in their Resolution No. 2087, dated the 5th June 1894, deprecating the accumulation of unnecessarily large balances, does not appear to have been made except in the districts of Belgaum and Bijápur. The closing balances of the Local Boards of Dhárwár, Kánara, Kolába and Ratnágiri are not only much in excess of the minimum balances fixed in consultation with the Accountant General and reported to Government in this office No. 4041, dated the 20th September 1894, but are also much larger than the balances of the year 1893-94, while the aggregate balance exceeds by more than 85 per cent. the minimum declared to be necessary. Considering that the closing balance at Dhárwár is Rs. 2,68,954 or Rs. 98,954 more than the minimum balance fixed as already stated, the remark of the Collector of Dhárwár that it is not larger than is required to prevent the Boards from overdrawing their accounts with Government is not understood. An explanation on this point is being called for from him. the Collector of Kánara explains that the increase in the amount remaining unspent at the close of the year is due to the difficulty of getting Local Fund works carried out rapidly by contractors. I am informing the Collector that in the absence of contrators who can execute works within the appointed time the best course for the Boards would be to carry out the works either departmentally or through the agency of the Government Public Works Department. The excess over the minimum balance for the Kolába District was due chiefly to the lapse of sums budgeted for works which were not completed within the year under report. The Collector will be asked to call upon the Boards concerned to take steps to prevent such lapses.

It will be seen from the above table that the highest percentage of expenditure on education was in the Ratnágiri District, on medical objects in Kánara, and on the construction of public works in the Bijápur District.

Statement IV.

11. The following table summarizes the expenditure incurred under the principal heads of village sanitation as compared with that in the year 1893-94:—

Year.	Improvement of water-supply.	Improvement of village sites, &c., including removal of rank vegetation.	Conservancy of towns and villages.	Total Expenditure on Sanitary objects.	Remarks.

12. The following are the details of expenditure on the improvement of water-supply by the construction of new works:—

District.	Number of new tanks dug.	Expenditure.	Number of new wells sunk.	Expenditure.	Total number of works.	Total Expenditure.
		Rs. a. p.		Rs. a. p.		Rs. a. p.
Belgaum	7	846 15 8	21	10,042 10 4	28	10,889 10 0

Total ...	23	12,875 6 2	159	65,988 9 11	182	78,864 0 1

In addition to the expenditure given in the above statement, Rs. 59,903-14-8 were spent on the improvement of the existing sources of water-supply. Of the six forming this Division, the three coast districts have a comparatively good supply of drinkable water. Above the ghâts there is not much to choose in this respect between Dhárwár and Bijápur; Belgaum is a little better off than either. The Provincial grant for village water-supply was Rs. 25,000 for the whole Division, and it was fairly distributed and wholly availed of. That greater

attention than in the preceding year has been paid to this most pressing want is evidenced by an expenditure that beats previous records.

Progress in material improvement as shown by new works executed by Local Boards.

13. The progress in material improvement has as in previous years been slow, but steady. In forming an expectation of results in this direction the most important factor appears to be the relation between the income and the area of each district. The figures given in the statement at the close of paragraph 10 of this report show but slight variations in the district percentages of expenditure on educational and medical objects, Ratnágiri in the one case and Kánara in the other being rather conspicuous exceptions. No connection is traceable between these percentages and the density of the population of the respective districts, as will be seen from the following table:—

District.	Population per square mile.	Percentage on Total Expenditure of Expenditure on	
		Education.	Medical objects.
Belgaum	201	34·3	4·3
Bijápur	129	31·6	4·2
Dhárwár	231	33·7	3·8
Kánara...	96	35·2	9·5
Kolába...	278	37·6	5·3
Ratnágiri	271	57·03	6·6

As regards educational objects, the reason of this of course is the necessary approximation of expenditure to the proportion of one-third of income. Medical expenditure probably bears some relation to climatic influences. In Ratnágiri special causes exist in the shape of the School of Industry and of the Leper Asylum why the expenditure under either head should exceed the normal.

Turning now to the expenditure on public works and accepting the figures shown in the statement at the close of paragraph 10 as indicating the normal proportion of outlay on this object that each district can afford, and taking the incidence of income per square mile of each district as the standard of reference, we arrive at the results shown in the last column of the subjoined table, which may be said to fairly indicate the relative capacities of the various Boards to effect material progress in their respective limits :—

District.	Incidence of Income per square mile.	Normal percentage expenditure on public works.	Possible expenditure per square mile on public works.
	Rs.	Rs.	Rs.
Belgaum	49·2	57·1	28·0
Bijápur	32·8	59·03	19·3
Dhárwár	76·5	56·6	43·3
Kánara	30·4	45·1	13·7
Kolába...	61·5	47·02	28·9
Ratnágiri	35·3	25·5	9·0

It will be at once apparent that little or no progress can be expected in Ratnágiri and Kánara, and this negative expectation is realised on perusal of the reports of the Collectors of those districts.

As already observed above (paragraph 9), all the Boards are still nursing unnecessarily, large balances, and are, therefore, not yet working fully up to the

standard indicated above. It will be seen from the remarks recorded below on individual districts, that Bijápur notwithstanding its low position on the above list has apparently achieved more real progress during the year than any other district.

The Collector of Belgaum reports that in his district the Local Funds are poor, and that more than half the amount available for public works is annually absorbed in maintenance charges. Rs. 29,598 were nevertheless spent during the year on new lines of communication. Out of this, Rs. 20,000 were expended on the construction of the road (18 miles in length) connecting Kudchi on the Southern Marátha Railway with Terdal in the Jamkhandi State. This is a railway feeder of considerable importance as it traverses parts of the Athni Táluka for nearly half its length and thus opens to trade a large tract liable to famine. The construction of other feeder roads is awaiting the allotment of funds. The water-supply of the district also received some attention, as nearly Rs. 11,000 were spent on wells and tanks. Five dharmshálas, five chávdis and eight new school-houses were also constructed at an aggregate cost of Rs. 26,000. The Collector rightly observes that year by year as new works multiply, the provision for repairs must proportionately increase and as a consequence the amount available for new works must gradually diminish unless the income of the Local Boards increases *pari passu*.

In the Bijápur District the two most pressing wants are in respect of roads and water-supply. During the year under report the Local Boards spent Rs. 19,985 on roads. The long felt want of a road between Kerur and Katgeri has now been supplied. A portion of the Bijápur-Bágevádi road from the Don river to Mángoli has been completed at an expense of Rs. 10,936. The Local Boards have in addition constructed the Indi-Sindgi *vid* Almel and Indi-Bijápur roads and improved the road between Indi and Indi Road Station by the construction of a pavement to the nála which was difficult to cross in the monsoon. Now that Government have promised to grant to the Local Board a sum of Rs. 20,000 annually for five years towards the construction of feeder roads, the work will be pushed on with vigour. The improvement of water-supply also received commendable attention. Over Rs. 45,000 were spent for that purpose and three tanks were improved and sixty-eight new wells constructed in villages which were badly off for water. Village sanitation has also made some progress. During the year under report the Act was introduced into sixteen villages, and Rs. 642-8-0, the share of the cost of sanitation in villages to be borne by Local Boards, were handed over to the Sanitary Committees. As this is the first year of the introduction of the Act, it is premature to make any remarks regarding the working of these bodies. The Collector states that in his district there are many schools without proper accommodation. The want of school-houses is common to many other districts besides Bijápur, and it can be supplied only gradually as funds permit. During the year under report, four new school-houses were constructed at an aggregate cost of Rs. 6,313.

In the Dhárwár District the total expenditure under the head of water-supply was Rs. 57,477 ; the amount spent on the construction of new works or on the improvement of old ones came to only Rs. 18,901 ; the balance appears to have been used on repairs. Besides this the Local Boards spent Rs. 9,617 on the construction of school-houses at Guttal and Kurtkot and on making additions and alterations to the existing school-house at Bankápur. As regards communications only a small sum of Rs. 1,522 was expended on the improvement of the Tadas-Gondi road in the Hángal Táluka.

The Collector of Kánara states that in his district, where from 80 to 90 per cent. of the land is under forests and only the remaining small percentage pays the one-anna cess, the Boards are naturally extremely poor, and that they have consequently barely enough funds to keep in existence and very moderate repair the large net-work of roads which are needed in the district. The result of this is that the Boards can very rarely undertake any new works, and that when they do so, the works are very small. During the year under report four new school-houses were constructed and some progress in building two others was made ; two petty roads were made under Civil Agency at the aggregate cost of Rs. 280, and three new wells and a hond were completed.

In the Kolába District during the year two-thirds of the Pen-Panvel road was completed. This is an important line of communication which the District Local Board has taken in hand with a view to facilitate traffic with the Ghâts. The other works undertaken for facilitating communication were minor ones, and it is unnecessary to mention them here. Besides the expenditure on roads the Local Boards laid out nearly Rs. 4,000 on original water-works which were urgently needed in several villages.

In the Ratnágiri District no progress worth noticing seems to have been made in providing new roads. The Local Boards in the district are handicapped by the annually recurring charges on account of the Ambághát loan, the School of Industry and Leper Hospital which leave but very little balance for outlay on new works. The project for the construction of the Dápoli-Mandangad road, which is estimated to cost Rs. 3,500, is still in its preliminary stage and no portion of the allotment made for it has yet been spent. The Collector states that the most important water-work project in hand is that of Bánkot, the object being to bring water to the bandar. The town of Bánkot has already been supplied with water.

14. The working of the Local Boards has been on the whole fairly satisfactory, what credit is due being mainly the property of the official members. The non-official members as a body continue to take but moderate interest in the work of the Boards. But it is perhaps unreasonable to expect from the members of Táluka Boards much gush outside the Board-room about the construction of the few and petty works which it falls to the lot of Táluka Boards to carry out and in which the chances are that the majority of members feel little personal interest. There are, however, a few non-official members who have displayed commendable interest in the discharge of the duties devolving on them. Mr. Davidson, the Collector of Kánara, commends to the notice of Government the names of Ráo Sáheb Náráyanráo Udiáwar of Honávar and Mr. Venkatráo Gururáo Nadig of Mundgod. Mr. Drew, the Collector of Ratnágiri, mentions the names of the following gentlemen who he states have displayed some interest in the work of the Local Boards:—Mr. Anant Yeshwant Prabhu, Vice-President of the Rájápur Táluka Local Board and member of the Ratnágiri District Local Board, Mr. Vishnu Hari Barve, Vice-President of the Dápoli Táluka Local Board, Mr. Krishnáji Ramchándra Chaukar, Vice-Pesident of the Khed Táluka Local Board, Mr. Sitárám Raghunáth Desái, Vice-President of the Málvan Táluka Local Board, and Mr. Gangádhar Bhikáji Bápat, Vice-President of the Devgad Táluka Local Board.

15. It is probable that other gentlemen in other districts equally deserve mention, and it would perhaps be well if the Collectors took more pains to bring their names to notice. But as it is, no other names have been favourably mentioned in any of the district reports.

STATEMENT NO. I.—CONSTITUTION OF BOARDS AND MEMBERS.

4. The number of the Local Boards during the year under report was the same as before, *viz.* 5 District Boards and 46 Táluka Local Boards. The District Boards are presided over by the Collectors and Deputy Commissioners, and the Táluka Boards by the Assistant or Deputy Collectors in charge of the tálukas, except the Táluka Boards of Jacobabad and Shahdádpur in the Upper Sind Frontier District, which are presided over by the Mukhtiárkárs of the tálukas concerned.

5. The area subject to the authority of the Boards in the Province varied slightly from the previous year: there is a decrease of 4·03 square miles in the area of the Upper Sind Frontier District, which is explained to have been discovered after the survey of the remaining 26 unsurveyed dehs of the Thul Táluka last year.

6. The total population remains unchanged, but owing to the entire táluka of Mirpur Khás, as well as certain dehs of the Dero Mohbat and Shahdádpur Tálukas having been transferred to the Thar and Párkar District, with effect from the 1st August 1894, under Government Notification No. 2062 published in the *Bombay Government Gazette*, dated 22nd March 1894, the population subject to the authority of the Boards concerned in the two districts has changed.

7. The elective system remained in force in the districts of Karáchi, Hyderabad and Shikárpur; but in the Upper Sind Frontier and Thar and Párkar Districts, excepting the táluka of Mirpur Khás and certain villages transferred to Thar and Párkar from the Hyderabád District as explained in the preceding paragraph, the elective franchise has not been applied, and the Boards consist of nominated members only.

8. The third triennial term of all the District Boards and of the Táluka Local Boards, excepting those in the Karáchi District, having expired, the Boards were reconstituted during the year: the dates on which the terms expired and the new Boards commenced their terms of office are given below :—

9. The information required by Government Resolution No. 2617, dated 1st September 1887, regarding the elections held in the Táluka Local Boards in the Hyderabad and Shikárpur Districts, is given in the subjoined table, that for the Karáchi District having been already supplied in the preceding year's report:—

*Includes 42 votes recorded for persons appointed by the Collector under Section 24 of the Act.

Note.—Two appointments in the Ghotki Táluka, 1 in the Mirpur Táluka, 2 in the Labdárya Táluka and one in the Kámbar Táluka were made by the Collector under Section 24 of the Bombay Local Boards Act owing to the requirements of Rule 5 of the election rules not having been complied with.

10. Owing chiefly to the territorial changes and the reconstitution of the Boards there was a net increase of 4 in the number of nominated and 1 in that of the elected members.

11. 405 meetings were held during the year under report against 358 in the previous year, showing an increase of 47. The rule that District Boards should hold half-yearly meetings was duly observed by all of them. The Táluka Local Boards held a sufficient number of meetings, except in the case of Sháhbandar, Naushahro, Párkar and Jacobabad. As to the shortcoming in the Párkar Local Board, the Deputy Commissioner, Thar and Párkar, states that the funds at the disposal of the Board were so insignificant that it was not necessary to hold more than one meeting. No reason has been assigned in the case of the other Boards, and their attention will be drawn to this.

12. The average attendance at District Local Board meetings was over 50 per cent.—about the same as last year. The attendance at the Táluka Local Board meetings was fairly good, though in some cases less than 50 per cent. of the members attended all the meetings: nowhere, however, were less than one-third of the members present at a meeting.

The average attendance for each district is calculated as follows:—The figure of the average attendance at each meeting of the different Boards is multiplied by the number of meetings held in order to ascertain the number of persons present at all the meetings of each Board; the aggregate number of members being divided by the aggregate number of meetings held, the average for the district is found, and in like manner the average for the province.

Statement II.

13. The total income of the several Boards amounted to Rs. 8,38,612-1-1 as against Rs. 8,40,019-12-5, showing a decrease of Rs. 1,407-11-4. The balance at the credit of the Boards from the preceding year was Rs. 3,89,679-5-8, and the sum available for expenditure was therefore Rs. 12,28,291-6-9 as against Rs. 12,01,977-9-4. The principal items of income are shown in the following table:—

14. *I.—Land Revenue.*—The income under this head consists of sale-proceeds of trees, grass, &c., in the Hyderabad, Shikárpur and Upper Sind Frontier Districts and shows a decrease of Rs. 2,868-3-4. All the above districts share in the decrease, which was chiefly due to smaller sales of trees and loppings than in the previous year.

15. *VI.—Provincial Rates.*—The realizations under this head comprise the net proceeds of the one-anna cess levied under the Bombay Local Funds Acts of 1869 and 1884. They amounted to Rs. 4,63,623-3-11 as against Rs. 5,01,846-11-10, showing a decrease of Rs. 38,223-7-11. All the districts excepting Upper Sind Frontier District, which shows an increase of Rs. 4,670-8-0, share the decrease. In the Karáchi District the decrease is explained to be due to the grant of remissions on account of loss of crops caused by the heavy rainfall of 1894. In the Hyderabad District it is chiefly attributable to territorial changes. The decrease in the Shikárpur District is explained to be due to decrease in Land Revenue collections owing to absence of floods and rain, while that in the Thar and Párkar District is ascribed partly to short receipts arising from the closing of the Nára supply channel in consequence of its being deepened and the additions and alterations to the head regulator which resulted in diminution of rabi cultivation and partly to the damage caused to the kharíf cultivation in consequence of the floods. The increase in the Upper Sind Frontier was due to increase in cultivation and consequently a proportionate increase in the Local cess.

16. *XII.—Interest.*—The sum of Rs. 2,307-14-4 entered under this head represents interest on the Dispensary securities and on the closing balances of certain defunct Municipalities in the Thar and Párkar District abolished in 1878, these balances being made over to the Local Funds on condition that the latter defray the requisite expenditure on certain specified objects. The increase of Rs. 1,489-15-2 under this head is chiefly due to the interest received on investments of Dispensary funds, which were transferred to the Local Boards under Government Resolutions No. 3298, Financial Department, dated 23rd September 1893, and No. 4352, Financial Department, dated 12th December 1893.

17. *XVII.—Police.*—The total net receipts under this head amounted to Rs. 22,951-3-10 as compared with Rs. 23,553-13-2 in 1893-94, showing a decrease of Rs. 602-9-4 which occurs in the Karáchi and Hyderabad Districts, and is explained to be due to larger amounts having been expended on repairs to cattle pounds damaged by heavy rains in the former district, and to the impounding of fewer cattle in the latter district during the year under report.

18. *XIX.—Education.*—The sum of Rs. 7,733-8-2, entered under this head, represents the following items :—

	Rs.	a.	p.
1. Fees received from students attending schools.	1,675	7	3
2. Sale-proceeds of books, furniture, &c. ...	1,208	0	11
3. Contributions	4,850	0	0
Total ...	7,733	8	2

The last item represents contributions received from certain Local and Municipal Boards towards the maintenance of certain educational institutions, which have been shown here in compliance with the instructions contained in paragraph 2 of Government Resolution No. 2547, dated 22nd July 1893.

19. *XX.—Medical.*—The receipts under this head, details as under, amounted to Rs. 881-12-2 as against Rs. 8,666-6-8, showing a decrease of Rs. 7,784-10-6, which is chiefly due to the inclusion in the previous year's figures of Dispensary balances :—

	Rs.	a.	p.
1. Hospital and Dispensary receipts	123	8	6
2. Contributions	296	0	0
3. Miscellaneous—other receipts	462	3	8
Total ...	881	12	2

The receipts under the first head represent Dispensary receipts; the "Contributions" are made by Municipalities towards the cost of Vaccination Establishments; and the item of Rs. 462-3-8 is the surplus balance of the Mirpur Batoro Municipality transferred to the Dispensary at that place under Section 5 of Act II of 1884 on the abolition of the Municipality.

20. *XXI.—Scientific and other Minor Departments.*—The total realizations under this head amounted to Rs. 18,082-5-4. This sum compared with the past year shows an increase of Rs. 9,066-3-1, which is common to all the districts, and is chiefly attributable to the inclusion under this head of the balances and receipts of the Veterinary Dispensaries transferred to the Local Funds. The receipts are composed of the following items :—

	Rs.	a.	p.
1. Botanical and other Public Gardens ...	5,840	10	9
2. Veterinary receipts	7,726	2	0
3. Receipts on account of experimental cultivation	2,598	8	4
4. Fairs and Exhibitions	1,911	1	8
5. Miscellaneous	5	14	7
Total ...	18,082	5	4

The sum of Rs. 48 shown under "Veterinary receipts" in the Upper Sind Frontier District represents the share received by the Board of the hire of the Government stallion working at the municipal well at Jacobabad.

21. *XXV.—Miscellaneous.*—The realizations under this head include fees for staging bungalows and seráis; sale-proceeds of produce of land, old stores and

materials, &c., and as compared with the previous year show a net decrease of Rs. 1,873-2-7. The decrease chiefly occurs in the Hyderabad and Shikárpur Districts, and is due in the former to certain overpayments made by the Board having been refunded in 1893-94, swelling the receipts of that year, and in the latter chiefly to the transfer to the Municipality of Sukkur of the District Board travellers' bungalow at that place.

22. *XXXII.—Civil Works.*—The total realizations under this head amount to Rs. 68,562-4-7, as per details subjoined:—

Heads.	1894-95.	1893-94.	Increase.	Decrease.

		Net increase ...	17,193 6 9	

The increase under the head Tolls on ferries and roads is due to increase in the receipts from the Kotri-Gidu, Syedpur-Tanka and Sukkur-Rohri steam ferries.

The amount shown under Contributions, which is of a fluctuating nature was received from private persons, Municipalities and other bodies towards various objects; details of some of them are given below:—

Rs.	a.	p.	
1,300	0	0	Paid by the Hyderabad Municipality for roads.
3,000	0	0	Paid by the Garhi Yásin Municipality towards the cost of building a Dispensary.

26. *XVIII.—Administration.*—The expenditure under this head amounted to Rs. 25,173-2-2, or Rs. 482-15-11 more than in the previous year. Expenditure shown under this head is made up, as reported last year, of charges incurred on account of establishments entertained by Local Boards and in Government offices on the business of such Boards, &c. The largest increase occurs in the Karáchi District and is ascribed chiefly to purchase of dead-stock articles by the several Boards during the year under report.

27. *XX.—Police.*—There was no expenditure under this head during the year under report or in the previous year.

28. *XXII.—Education.*—The decrease under this head amounts to Rs. 3,417-8-3, the figures being for this year Rs. 2,62,304-13-5 and for last year Rs. 2,65,722-5-8. The differences are distributed over the different districts as follows:—

The decrease in the Hyderabad District is due to

(*a*) charges on account of the Agricultural School having been met out of the Village Cess Fund instead of the Educational Local Fund from 1st January 1895;

(*b*) transfer of the Mirpur Khás Táluka schools to the Thar and Párkar District;

(*c*) larger amount of grant-in-aid, including arrears of 1892-93, having been paid in 1893-94.

(*d*) decrease in the number of normalists in the Female Training College;

(*e*) decrease in expenses on account of boarders in the Tando Ali Mardanjo School owing to decrease in the number of pupils attending the school, while that in the Shikárpur District is chiefly due to a large contribution of Rs. 10,000 having been made in 1893-94 towards the Victoria Jubilee Technical Institute at Sukkur. The increase in the Karáchi and Upper Sind Frontier Districts is mainly attributable to the appointment of new trained men and increments to the old hands under the Vernacular Master's Code, while that in the Thar and Párkar District is chiefly due to the transfer to it of the Mirpur Khás Táluka schools from the Hyderabad District.

29. *XXIV.—Medical.*—The expenditure under this head consists of the following items:—

The figures show an increase of Rs. 21,404-8-1 which is common to all the districts. The increase is chiefly attributable to

(*a*) the transfer of the Dispensary Fund Accounts to the Local Boads;

(*b*) payment in the Shikárpur District of contribution toward the cost of vaccination for 1893-94 in addition to that for 1894-95; and

(*c*) the cutting of jungle in several villages in the Karáchi District.

30. *Scientific and other Minor Departments.*—The expenditure under this head amounted to Rs. 40,858-3-4 against Rs. 42,678-3-10 in the previous year, showing a net decrease of Rs. 1,820-0-6, as detailed below :—

The increase in the Karáchi and Hyderabad Districts is due to the transfer of the Veterinary Dispensaries to the Local Funds from 1st February 1895. In the latter district it is also partly due to 2 horse and cattle shows having been held at Moro and Talhar, whereas in 1893-94 one was only held at Moro. The increase in the Upper Sind Frontier District is due to the Sind Horse Show having been held at Jacobabad during the year; this accounts for the decrease in the Shikárpur District. The increase in the Thar and Párkar District is trifling.

31. *XXX.—Stationery and Printing.*—The expenditure under this head amounted to Rs. 1,644-12-2 against Rs. 3,192-7-9, showing a decrease of Rs. 1,547-11-7. The largest decrease occurs in the Karáchi and Shikárpur Districts and is chiefly ascribed to the printing of forms in connection with Local Board elections in the previous year.

32. *XXXII.—Miscellaneous.*—The expenditure on account of establishments for travellers' bungalows, &c., during the year under report as compared with the preceding year, for each district separately, is given in the subjoined table :—

The small increases and decreases appearing under this head call for no special comment.

33. The expenditure under other petty establishments amounted to Rs. 54,099-7-0 against Rs. 53,823-14-2, showing a net increase of Rs. 275-8-10 as detailed below :—

The decrease in the Hyderabad District is due to a smaller number of men having been employed on planting and preserving trees in consequence of the area of the district being reduced, and to less expenditure on contingencies. In Shikárpur the decrease is due to savings caused by vacancies and absence on leave. The increase in the Karáchi District is chiefly due to increase in expenditure in connection with planting and preservation of road-side trees. The increase in the Thar and Párkar District is attributable to territorial changes.

Contributions to other Boards.

38. The following table shows the opening balances at the beginning of the year under report, together with receipts and expenditure incurred during the year, and the closing balances of the year for each district and for the whole province :—

39. The opening balance now shown differs from the closing balance shown last year, the difference being only of a pie, which is due to adjustments made in connection with certain expenditure on Local Fund works incurred through Public Works Agency in the Thar and Párkar District subsequent to the submission of the reports for 1893-94.

40. A comparison of the balances of the Hyderabad and Thar and Párkar Districts will also show a decrease of Rs. 2,743-6-3 in the former and a corresponding increase in the latter district, which is due to territorial changes.

41. For the sake of comparison the figures of balances, receipts and expenditure, on account of the Mirpur Khás Táluka Local Board, which has been transferred from Hyderabad to the Thar and Párkar District, have been shown by the Collector of Hyderabad and the Deputy Commissioner, Thar and Párkar, in their reports and statements as if the Board belonged to the Thar

and Párkar District for the whole year of 1894-95, although the transfer was actually effected from 1st August 1894.*

42. It will be observed from the above table that the receipts of the Karáchi, Hyderabad, Shikárpur and Thar and Párkar Districts did not cover the actual expenditure incurred during the year under review owing to a much larger amount having been spent on public works. The balances have in consequence been much reduced in the above districts. Most of these balances will be absorbed in the new works provided for in the original and supplementary budgets prepared for the current year. A detailed report called for in Government Resolution No. 2087, dated 5th June 1894, as regards the measures adopted by the Local Boards in Sind, was submitted in the Commissioner's No. 569, dated 7th March 1895.

Statement IV.

43. This statement shows details of the works undertaken for the improvement of village sanitation. The following table shows the total expenditure incurred under the different heads in each district of the province:—

District.	Improvement of water-supply.	Improvement of village sites, &c., including removal of rank vegetation.	Conservancy of towns and villages.	Sanitary arrangements at fairs and festivals.	Other objects calculated to promote the safety, health, comfort and convenience of rural population.	Total.

Total ...	34,587 2 8	1,624 12 9	603 0 0	523 7 6	429 5 7	37,767 12 6

44. It will be seen that the amount spent on the improvement of water-supply, *viz.* Rs. 34,587-2-8, was more by Rs. 5,900-5-6 than the amount spent in 1893-94, the largest increase occurring in the Hyderabad District. Of the total expenditure, Rs. 23,136-1-10 were spent on original works such as wells tanks, &c., and Rs. 10,038-5-1 on improvement to the existing sources of supply. The expenditure in connection with the improvement of village sites amounted to Rs. 1,624-12-9, of which Rs. 1,005-13-9 were contributed by the Karáchi District alone, whereas in the previous year the amount spent on this account was Rs. 629-2-0.

It is satisfactory to note that the Boards do useful work towards the promotion of sanitation.

During the year under report, Government were pleased to allot Rs. 10,000 for village water-supply and Rs. 2,500 for village sanitation to Sind, but proposals were submitted to the extent of Rs. 5,436,† while the amounts actually received as shown in the table under paragraph 23 appears to be Rs. 2,468‡ only on account of water-supply. This was the first year Government extended the concession to Sind, and it is hoped that these grants will be much availed of during the current year now that the intentions of Government and the conditions on which the grants are available are familiar to the Local Boards and the people generally.

A comparison of the figures under some heads in this report with those given in the Presidents' reports will show a few differences which are due to the correction in this office of errors in the latter.

"2. I now give below the detail of important works undertaken and completed by the Local Boards' own employés during the year 1894-95:—

Musáfirkhána at Hájisháh, Kambar Táluka	...	1,130

Communications.

"8 bridges, cost of each varying from Rs. 450 to Rs. 1,400.

"22 culverts, each costing Rs. 300 to Rs. 540.

"Road from Lárkhána to Shahdádpur, Rs. 1,600.

Miscellaneous Public Improvements.

"Protective bund at Garhi Tego in the Shikárpur Táluka.

"The total cost of the embankment was Rs. 932-12-0, of which the Local Funds paid Rs. 400 and the balance was contributed by the villagers in labour.

Water-works and Water-supply.

"12 new wells were sunk, cost of each varying from Rs. 125 to Rs. 500."

Thar and Párkar,—The Deputy Commissioner states:—

"The road from Umarkot to Sufi was raised at a cost of Rs. 1,215 in order to facilitate traffic between Shádipálli Station and Umarkot during the inundation season, and two culverts were also constructed on this road at a cost of Rs. 119-14-4.

"2. The bridge over the Bagiwah on the road from Juda to Nawakot being in a dilapidated state was demolished and reconstructed at a cost of Rs. 684-2-3.

"3. Rs. 836-5-7 were spent on improving and repairing the road along the bank of the Mithrau Canal to facilitate communication with the terminus of the railway at Shádipálli. The following works were also undertaken during the year:—

"1. A school-house at Gulám Nabishah was constructed at a cost of Rs. 836-0-0.

"2. The construction of the dispensary building at Sanghar was undertaken as per plan and estimate sanctioned by Government in their Resolution No. 2952 of the 28th August 1891. The cost of the building amounts to Rs. 7,509, of which Rs. 2,996-10-11 were spent during the year."

Upper Sind Frontier.—The Deputy Commissioner states that paragraph 27 of his report, appended, details the works undertaken by the Boards, &c. He adds:—

"The most important were—

"1. The embankment by the Táluka Board, Shahdádpur, at a cost of Rs. 1,279-2-7, of 2 miles of the Shahdádpur-Bágo-Durro road which will prevent this road from being rendered impassable at certain seasons of the year when the hill torrents come down.

"2. The construction of 4 road bridges by the Táluka Board, Jacobabad, at a cost of Rs. 2,331-2-10, over zámindári canals in continuation of the scheme, which has been steadily worked at for years, of bridging such canals permanently with good masonry bridges.

"3. The building, by the Jacobabad Táluka Board, of a new musáfirkhána at Mouladad at a cost of Rs. 376. This place is a considerable village, the head-quarters of a chief constable about 6 miles from Jacobabad, and there is a good deal of traffic through it. This building supplies a long-felt want.

"4. The erection, by the Public Works Department, of a regulator bridge over the Unharwah on the Udi-Kandhkote road. This regulator serves the purpose also of a road bridge, the extra cost required to enable it to be thus built, *viz.* Rs. 1,586, being provided by the Táluka Board of Thul.

"5. The sinking of 13 wells at a total cost of Rs. 5,642-6-5 for the improvement of village water-supply. Of 9 of these the cost was provided as follows:—

Táluka.	Number of wells.	Amount paid by		
		Táluka Board.	Government.	Private persons.
		Rs.	Rs.	Rs.
Jacobabad	4	936	932	932
Shahdádpur	...	...	...	...
Thul	4	852	849	999
Kashmor	1	234	233	233

This district is not provided with wells to anything like a sufficient extent, and the more that can be built on this system the better. But a great drawback to well-sinking is the fact that wells very frequently turn out brackish, and after remaining sweet for some time become salt and the water unfit for use. The remaining four wells were sunk by Táluka Boards without Government aid.

"6. Rs. 446-15-3 was spent on clearing away jungle and filling in dirty hollows around villages. This was the first year any such expenditure has been incurred from Local Funds, and, therefore, I notice it here.

"7. The only educational works of importance were :—

"1. The building, at a cost of Rs. 250, of a school-house at Janidero, a village about 3 miles from Jacobabad, where the Jekhráni Chief Sirdár Bahawal Khán resides.

"2. Building quarters at a cost of Rs. 390 for the master of the Kashmor School, Kashmor is the head-quarter town of the táluka, and the school is a flourishing one and quarters were urgently required for the master."

From

Colonel R. I. CRAWFORD,
Collector and President,
District Board, Karáchi;

To

Sir E. CHARLES K. OLLIVANT, K.C.I.E., I.C.S.,
Acting Commissioner in Sind.

President's Office,
Karáchi, 18th June 1895.

Sir,

I have the honour to submit my report on the Administration of Local Boards in this district for the year 1894-95, together with the Statements I to IV, and to offer the following remarks on the same.

Statement I.

2. The population and the area of the district and the number of members of the several Boards are the same as last year.

3. The number of meetings held during the year was 66 against 40 in the last year, showing an increase of 26, as compared below: —

Name of Board.	1894-95.	1893-94.	More.	Less.
District Board, General	2	2	.....	.....
Karáchi-Sákro	3	2	1	.....
Tatta	12	4	8	.....
Ghorábári	3	4	.....	1
Shahbandar-Jati	5	3	2	.....
Sujáwal-Mirpur Bathoro... ...	6	2	4	.....
Kotri-Mánjhand	5	7	.....	2
Sehwan	9	7	2	.....
Dádu	11	5	6	.....
Johi	10	4	6	.....
Total ...	66	40	29	3

4. There has been a slight increase in the average attendance of members as compared with the last year.

Statement II.

5. The closing balance of the last year shown against District Board, General, in this statement is Rs. 50,931-6-8, whereas that shown in Statement III of the past year was Rs. 52,348-15-7. The difference, Rs. 1,417-8-11, is on account of the balance on 31st March 1894 at the credit of the three Dispensaries, *viz.* at Jerruck, Tháno Bulákhán and Mirpur Bathoro. These Dispensaries were transferred to the District Board from 1st April 1894 under Government Resolution No. 4352, dated 12th December 1893, and their balances on the 31st March 1894 were incorporated in that of the District Board, General, in Statement III for 1893-94. But under the orders of the Accountant General, since received, a separate account, called "Local Board Dispensaries," has been opened, against which the balance above referred to has now been shown as closing balance of last year in Statement II for 1894-95.

6. According to Government Resolution, Revenue Department, No. 10572, dated 22nd December 1894, the accounts of the Karáchi Veterinary Dispensary were transferred to the control of the District Local Board, and, as subsequently directed by the Accountant General, a separate account, called "Karáchi Veterinary Dispensary," was opened, and the balance at the credit of the Dispensary on 31st January 1895, *viz.* Rs. 6,627-6-0, was transferred to the Incorporated Local Fund Account: hence the total closing balance of last year shown in Statement II has been increased from Rs. 1,23,163-11-0 to Rs. 1,29,791-1-0.

7. *VI.—Provincial Rates.—Local Rates.*—Receipts under this head amount to Rs. 68,039-4-0 against Rs. 79,001-12-0 last year, which is owing to heavy rains and unusual floods during the year.

8. *XII.—Interest on Dispensary Securities, Rs. 64-10-2.*—This item represents the interest of Government Promissory Notes belonging to the Jerruck and Tháno Bulakhán Dispensaries.

9. *XVII.—Police. Receipts under Cattle Trespass Act, Rs. 1,695-3-0.*—There is a decrease of Rs. 1,085-14-1 under this head which is chiefly due to a large amount having been expended on repairs to cattle-pounds owing to heavy rains.

10. *XIX.—Education, Rs. 1,528-11-0.*—There is an increase of Rs. 297-6-0 under this head which is chiefly due to more money realized by the sale of articles manufactured at the Talti and Dadu Technical Schools.

11. *XX.—Medical. Hospitals and Dispensary Receipts.*—Rs. 22-14-6 are on account of sundry receipts of the three Dispensaries, *viz.* Jerruck, Tháno Bulákhan and Mirpur Bathoro.

Other Receipts, Rs. 380-12-11.—This amount consists of Rs. 379-2-8, being the surplus balance of the Mirpur Bathoro Municipality transferred to the Dispensary at Mirpur Bathoro, owing to the abolition of the Municipality at that place.

12. *XXI.—Scientific and other Minor Departments: Veterinary Receipts, Rs. 175.*—This amount represents the contribution made by the public during the months of February and March 1895 towards the Veterinary Dispensary buildings.

Other Exhibitions and Fairs, Rs. 134-4-8.—There is an increase of Rs. 101-8-8 under this head which is owing to the fairs of Shah Yakik, &c., having been held in April 1894.

13. *XXV.—Miscellaneous.*—Receipts under this head amount to Rs. 4,134-9-3, showing an increase of Rs. 825-8-4 over that of last year which is owing to larger receipts from sales of produce of road-side trees, &c.

14. *XXXII.—Civil Works. Tolls on Ferries, Rs. 23,400-9-10.*—There is a net increase of Rs. 4,344-1-9 under this head, which is made up as under:—

	Rs.	a.	p.
Increase in Kotri-Gidu Ferry receipts	2,501	10	3
Do. in Syedpur-Tanka Ferry receipts ...	2,700	5	11
	5,202	0	2
Decrease in other District Ferries	857	14	5
Net Increase ...	4,344	1	9

Contributions, Rs. 200, were paid by the Ráj Máhájans of the villages of Banu and Saindino Gugo for new wells.

15. *Contributions from Provincial to Local, Rs. 67,889-2-2.*—These consist of the following items:—

(1) District Board, General.

	Rs.	a.	p.

(5) *Táluka Boards.*

	Rs.	a.	p.
Sand and quarry fees	1,204	2	7
Contribution for new wells	454	0	0
	1,658	2	7

(1) The increase of Rs. 7,040-14-0 in fishery receipts is due to favourable sale of farms.

Items 2 and 3 are shown for the first time, and require no comparison.

Item 4.—The increase Rs. 107-11-7 is on account of grant to school buildings. No such grant was made last year.

Item 5.—The increase Rs. 400-5-1 is chiefly due to the Government grant on account of wells.

Contributions from other Boards, Rs. 1,700.—This amount represents the District Local Board's grant towards the following Dispensaries:—

	Rs.
(1) Jerruck Dispensary	400
(2) Tháno Bulákhán Dispensary...	500
(3) Mirpur Bathoro	800
	1,700

16. The incidence of taxation and that of income, excluding balance, per head of population is shown against each Board. The decrease of 5 pies in the former is due to decrease in cess receipts, and the increase of 2 pies in the latter is chiefly due to the increase in ferry and fishery receipts.

STATEMENT III.

17. *18—Administration. Office Establishment, Rs. 3,165-8-0.*—There is an increase of Rs. 45-12-11 which is due to the increase of pay to Accountant.

18. *Office Contingencies.*—Rs. 779-9-6.—The increase of Rs. 561-11-6 is owing to purchase by several Boards of dead stock articles, &c.

19. *Payment of Establishment for Office of Accounts and Audit,* Rs. *935-7-8.* There is an increase of Rs. 52-15-4 under this head which consists of slight increases in the Local Fund Establishment charges of the Commissioner in Sind, Accountant General and the Educational Inspector in Sind.

20. *22—Education. Maintenance and Management:* (1) *Training and Special Schools, Rs. 2,142-7-3.*—There is an increase of Rs. 55-13-8 under this head which is owing to the employment of 2 pupil teachers in the Technical School at Dadu.

(2) *Primary Schools, Rs. 25,466-12-7.*—The increase of Rs. 1,415-3-8 under this head is due to the appointment of new trained men and the increments granted to the old ones under the Vernacular Master's Code.

21. *Grants-in-aid, Rs. 13,605-5-6.*—There is a decrease of Rs. 95-11-6 under this head. The grants noted below are usual, with the exception of an increased grant of Rs. 538-4-6 to Indigenous Schools and a decrease of Rs. 634 in the grants to the Agricultural Class and Municipal Schools.

(12) Female College, Hyderabad	500	0	0

22. *Scholarships, Rs. 2,307-7-8.*—There is a decrease of Rs. 326-12-5 which is owing to the expenditure under this head having been reduced in the Agricultural School and the Training College at Hyderabad. The scholarships were paid as follows:—

	Rs.	a.	p.
(1) Stipends under Training College, Hyderabad ...	1,086	8	2
(2) Do. Agricultural School	472	11	4

(4) Do. Technical School at Talti ...	532	4	2

23. *Miscellaneous, Rs. 4,014-6-1.*—The increase of Rs. 494-14-4 is attributed to the increased want of fixed contingencies, supply of registers, forms, &c.

24. *Medical Hospitals and Dispensaries, Rs. 8,366-10-8.*—There is an increase of Rs. 4,516-10-8 under this head which is partly due to a grant of Rs. 316-10-8 having been made to the Railway Dispensary at Dadu and Rs. 50 paid less to Mirpur Bathoro Dispensary than in 1893-94, and partly to the grant of Rs. 4,250 by the District Board towards the Karáchi Veterinary Dispensary.

25. *Local Board Dispensaries, Rs. 3,282-13-10.*—This is a new account now shown. It represents the expenditure of the 3 Dispensaries under the control of the District Board General—(1) at Jerruck, (2) at Tháno Bulákhán, (3) at Mirpur Bathoro.

26. *Vaccination Establishment and Charges, Rs. 5,127-1-0.*—The decrease of Rs. 410-4-4 under this head is nominal, chiefly owing to the change of system of payment of vaccinators' salaries, which for the most part of the year was paid in advance, and then changed to the salary of one month being paid in the next month.

Sanitation Charges, Rs.1,005-13-6.—There is an increase of Rs. 856-14-11 under this head which is chiefly due to cutting jungle in several villages.

27. *26—Scientific and other Minor Departments. Veterinary Charges, Rs. 799-14-6.*—This is a new account now shown, and the amount represents the maintenance expenditure incurred during 2 months of the year, *viz.*, February and March 1895. Rs. 3,771-13-5 expended during the two months on building the new Veterinary Dispensary have been shown under Civil-Buildings.

28. *30—Stationery and Printing, Rs. 802-4-3.*—There is a decrease of Rs. 708-10-10 under this head. In the last year the increase was owing to printing of election forms.

29. *32—Miscellaneous. Staging Bungalow and Serai Establishment and Charges, Rs. 1,428-10-10.*—There is an increase of Rs. 121-13-5 which is due to several Táluka Boards having purchased cots for dharmsálas.

30. *Other Petty Establishment and Charges, Rs. 18,286-9-3.*—The increase Rs. 1,385-14-8 is chiefly due to increase in the contingencies for planting and preservation of road-side trees and to the appointment of an overseer by the Sujáwal-Mirpur Board.

31. *Miscellaneous and Unforeseen Charges, Rs. 1,043-2-8.*—The increase of Rs. 193-12-8 is chiefly due to increase in the cost of medicines and the cess assigned to Municipalities.

32. *45—Civil Works in charge of Civil Officers—*

Sir,

I have the honour to submit the accompanying Statements Nos. 1 to 4 embodying statistical information, and to report on the administration of the Hyderabad District and Táluka Local Boards for the year 1894-95.

2. The District Local Board held 2 meetings during the year, and the Executive Committee of that Board held the same number of meetings.

3. A comparative statement showing the number of meetings and the average attendance is given below :—

	1893-94.		1894-95.		1894-95.			
					Increase.		Decrease.

Naushahro	6	7	3	8	...	1	3	...
Kandiáro...	11	7	8	8	...	1	3	...

The attendance at the District Board's meeting shows an improvement.

In Hyderabad and Tando Alahyar, the increase in attendance is due to a greater number of the members being on the spot.

In Shahdádpur, the decrease in attendance is due to a vacancy not having been filled up.

In Hála, certain works being under consideration it was found necessary to call more meetings than last year.

The Assistant Collector, Tando, reports that the number of meetings held was quite sufficient, although there was a decrease all round.

There is an increase of 9 in the number of meetings held by the Táluka Local Boards of Moro and Sakrand and a decrease of 6 in those held by the Kandiáro and Naushahro Táluka Boards. The increase is due to certain re-appropriations having been made during the year.

The whole of the Mirpur Khás Táluka and certain dehs of the Dero Mohbat and Shahdádpur tálukas were transferred to the Thar and Párkar District from 1st August 1894, owing to territorial changes, and with it a credit of Rs. 4,271-8-6 was given, which together with the sum of Rs. 323-3-3 spent on account of the Mirpur Khás Dispensary up to 31st July 1894, making a total of Rs. 4,594-11-9, was expunged from both sides of the account. Owing to these changes the number of Local Boards has been decreased, with a corresponding decrease of 42,121 and 709·72 in population and area respectively.

4. The area and population of Municipal and Cantonment limits have been excluded from the figures given in columns 4 and 5 of Statement No. I.

The decrease of Rs. 1,203-2-6 is due to "lac" not having been farmed in the Hála Táluka during the year under report.

The total under this head amounted to Rs. 672-13-6, from which Rs. 2-2-6 were transferred to the Thar and Párkar District.

The decrease of Rs. 11,657-15-6 is mostly due to territorial changes. The total under this head amounted to Rs. 1,23,026-5-0, from which the District Local Board transferred to the Dispensaries a sum of Rs. 1,600 and Rs. 1,806-2-6 to the Thar and Párkar District and Rs. 198-6-2 to the educational portion on account of share of cost of establishment employed in the office of the Educational Inspector in Sind.

XII.—Interest.

The receipts under this head relate to interest received on investments of Dispensary Funds.

XVII.—Police.

7. The receipts under this head amounted to Rs. 7,227-0-5, from which Rs. 30-5-6 were transferred to the Thar and Párkar District. In some tálukas, the expenditure has been more than the actual receipts. In such cases the excesses have been adjusted by means of *minus* entries in red ink against other receipts of the Boards. There is a decrease of Rs. 1,596-2-2 partly due to territorial changes and partly to a smaller number of cattle having been impounded during the year under report.

1894-95	10,648	13	3

The decrease of Rs. 718-15-1 is partly due to territorial changes and partly to higher rate of contributions having been charged in 1893-94.

Sanitation.—A sum of Rs. 190 was contributed by some of the Táluka Local Boards towards the cost of village sanitation in places where Sanitary Committees exist.

The Government and Village Committees have also contributed for this purpose. It is hoped that the application of these funds will be attended with satisfactory results.

The decrease of Rs. 772-5-11 is due to the fuel used in pumping machinery having been cut from the Farm Forest and not purchased from the Forest Department as is usually done.

Horse and Cattle Shows.

Two horse and cattle shows were held, one at Moro and the other at Talhar.

The Naushahro Horse and Cattle Show was held at Moro on the 4th February 1895 and the two following days.

The District Local Board and the four Táluka Local Boards of the subdivision contributed in all the liberal sum of Rs. 3,000, of which the details are given below :—

	Rs.
District Local Board	2,000
Kandiáro Táluka Local Board	55
Naushahro do.	145
Moro do.	400
Sakrand do.	400
Total	3,000

A sum of Rs. 600 was also contributed by Government as a temporary grant towards the expenses of the show.

Of the total amount thus placed at the disposal of the Horse Show Committee, a sum of Rs. 3,400 was given away in prizes to 339 successful exhibitors,

the remaining Rs. 200 being reserved to meet contingent charges. The aggregate number of exhibits of all classes this year was 1,155 as compared with 806 in the previous year, thus showing an increase in numbers of 349, of which, however, 77 are accounted for by the introduction of a class for camels. The most noteworthy and at the same time most satisfactory feature of the show was the extent to which purchases of remounts for the Native Cavalry and the Police were made, whereas at the previous show no such purchases took place. A total number of 72 remounts were bought for Government purposes at an aggregate cost of Rs. 11,700. Taking all things into consideration, the show was a very successful one.

The show at Talhar was held on the 28th and 29th January 1895. The number of animals shown was 808 horses, 4 mules, 32 cattle, 6 donkeys and 57 riding camels, making a total of 907. The best lot was undoubtedly the mares under 14—1, as it was also the most numerous. The 3-year old fillies were also a good class. Remounts were not very numerous, but were classed as "very good". Thirty were purchased for police remounts at prices varying from Rs. 100 to 180. Prizes of money to the extent of Rs. 1,600 were given, of which Rs. 440 went to the brood mares and Rs. 205 to remounts. Incidental expenses amounted to Rs. 539-9-6, leaving a balance of Rs. 260-6-6, which has been returned to the District Local Board. Amusements were provided for the enormous number of visitors, and without doubt the fair gathered to it all the influential classes in the sub-division. The judging was done by Veterinary Captain Morgan, the Superintendent of the Civil Veterinary Department.

A sum of Rs. 2,400 was contributed by the Local Boards towards the expenses of the Talhar Horse Show.

	Rs.
District Board	800
Badin Local Board	700
Tando Bago do.	600
Guni do.	300
Total	2,400

A sum of Rs. 523-7-6 was spent on sanitary arrangements on Fairs this year against Rs. 478-11-4 last year.

Veterinary Charges—Rs. 2,367-12-2.

There is an increase of Rs. 567-7-2 under this head as compared with last year.

A sum of Rs. 775 was received from Government as a grant-in-aid towards the maintenance of the Veterinary Dispensary.

The number of in-patients has increased from 60 to 233 and of the out-patients from 765 to 913. Out of those treated,

980 were cured,	37 died,
50 were relieved,	49 results unknown,
4 were incurable,	26 remaining.

The rapid increase in the attendance in this Dispensary shows that the institution is gaining popularity amongst the public. The good done by this institution is not confined to the town of Hyderabad. A larger number of patients than last year belonged to cultivators of outlying villages.

1893-94	978	6	9

1893-94	5,984	11	10

1893-94	904	13	10
1894-95	776	10	3

Local Fund Department.

From

The COLLECTOR of SHIKA'RPUR;

To

The COMMISSIONER in SIND.

Collector's Office,
Sukkur, 17th July 1895.

Sir,

I.—Constitution.
II.—Income.
III.—Expenditure.
IV.—Sanitation.

I have the honour to submit the Annual Administration Report on the working of the Local Boards in this district for the year ending 31st March 1895 together with the prescribed statements as per margin.

Statement I

Constitution.

2. During the year under report, the fourth triennial elections of the several Boards in this district were held, and the new Táluka Boards came into office on May 1st, 1894, and the District Board on the 1st of the following month.

3. The area and population of the Boards remained unchanged.

4. Compared with the previous year there is a decrease of one in the number of members, which is due to the transfer of certain villages from the Kakar Táluka to the Karáchi District in 1893-94. The holders of entirely alienated villages of the Ghotki Táluka have not elected a member for the Táluka Board, nor did the alienated holders of the district elect a representative for the District Board until lately. The two appointments thus remained vacant during the year.

5. The total number of meetings held by the several Boards was 148 against 138 in the previous year. The District Board held two half-yearly and two special meetings, at which more than half, but less than two thirds, of the members attended. On seven occasions the provisions of Section 34 of the District Local Boards Act were availed of. The work of the Executive Committee of the District Board was carried on, as in the previous year, by circulating propositions amongst the members, and not in committee—a procedure which is not satisfactory in all cases. The rules require monthly meetings to be held, which is being done now. No Táluka Board had less than five meetings, and the average attendance at these meetings was, on the whole, fair. Each Táluka Board has a works committee, to which certain duties have been assigned, and these are practically performed by the officials.

Statement II.

Income.

The year opened with a balance of Rs. 1,12,340-12-0 (exclusive of Rs. 529-14-5 subsequently added, owing to the transfer of the Veterinary Funds to the Incorporated Local Funds). The income of the several Boards during the year amounted to Rs. 2,86,406-9-11 against Rs. 2,92,491-7-6 in the previous year. The total amount at the disposal of the Boards was thus Rs. 3,99,277-4-4, inclusive of Rs. 529-14-5, against Rs. 4,06,902-7-2 or Rs. 7,625-2-10 less than in the preceding year. The items of income and the reasons for increases and decreases as compared with the last year are given below.

I.—Land Revenue.

Sale-proceeds of trees and grass, &c. The receipts under this head

	Rs.	a.	p.
in 1894-95 were	2,570	8	9
against 1893-94	4,086	11	2
Decrease ...	1,516	2	5

which is due to loppings of trees being less, owing to the unusually heavy inundation.

IV.—Provincial Rates.

Local rate or cess on land credited under Clause (*a*) of Section 44 of the Act.

The receipts were as follows :—

	Rs.	a.	p.
1894-95	1,90,470	6	11
1893-94	2,02,533	0	10
Decrease ...	12,062	9	11

due to less collections of Land Revenue, owing to absence of flood and rain.

XII.—Interest.

Rs. 112-3-8 represents interest on Dispensary Fund invested in Government securities and realized for the first time during the year to the credit of Local Fund.

XVII.—Police.

Receipts under Cattle Trespass Act in 1894-95 amounted to Rs. 8,157-14-4 against Rs. 7,259-5-4 in the preceding year, showing an increase of Rs. 898-9-0, which is due to five additional pounds having been opened during the year under report.

XIX.—Education.

There is a falling off in the receipts on account of school fees in primary schools in 1894-95, as compared with 1893-94, owing to the fact that school fees were abolished from several schools in the Mehar, Kakar, Nasirabad, Shikárpur, Labdaria and Lárkhána tálukas. The receipts were

	Rs.	a.	p.
in 1894-95	120	2	6
and in 1893-94	179	13	0
Decrease ...	59	10	6

Miscellaneous.

Under this head the receipts were as follows :—

	Rs.	a.	p.
1894-95	198	0	1
against 1893-94	735	6	9
Decrease ...	537	6	8

due to non-recovery of commission from Curator, Government Book Depôt, during the year, and less credits on account of recovery of excess expenditure. It includes Rs. 8 on account of Middle and Special School Scholarship Examination fees. Rs. 1-10-0 was on account of rent of a school-house. Rs. 188-6-1 were on account of Industrial School and other receipts.

XX.—Medical.

Hospital Stoppages, &c.

Receipts amounted to Rs. 25-4-0. There were no such receipts during the previous year.

Rs. 68 were contributed by the Kambar Municipality on account of vaccination charges.

Miscellaneous other receipts, Rs. 23-1-9. Of this amount Rs. 17 is on account of sale-proceeds of quinine paid by zamindárs. Balance, Rs. 6-1-9, is on account of sale-proceeds of unserviceable boxes sold by vaccinators.

XXI.—Scientific and other Minor Departments.

Botanical and other Public Garden Receipts.

The amount shown under this head, *viz.* Rs. 2,228-7-4, shows receipts from Shahi Bagh at Shikárpur, the garden at Pano and the Mirpur, Ubauro, Dokri and Radhan gardens. In the year 1893-94 a sum of Rs. 2,334-1-7 was realized. The difference is small, and needs no explanation.

XXV.—Miscellaneous.

Under this head are shown

	Rs.	a.	p.
Sale of old stores and materials	120	15	1
Staging Bungalow receipts	131	0	0
Other items	398	6	10
or Total ...	650	5	11
Against	1,768	13	9 in 1893-94.

The decrease of Rs. 1,118-7-10 is due to the fact that the District Board travellers' bungalow at Sukkur was transferred to the Sukkur Municipality.

XXXII.—Civil Works.

	Rs	a.	p.
Tolls on ferries in 1894-95	10,925	3	10
Do. 1893-94	8,471	9	6

	Rs.	a.	p.
Rent of buildings and land, 1894-95... ...	829	0	0
Do. 1893-94... ...	1,242	10	6

The rent on account of Bugri Bagh was not credited during the year: hence the decrease.

Contributions.

	Rs.	a.	p.
1894-95	8,826	10	5
1893-94	300	0	0
Increase ...	8,526	10	5

which is accounted for as follows :—

	Rs.	a.	p.

The Ratadero Municipality likewise credited on account of additions and alterations to the Dispensary there	1,000	0	0
People's contribution towards the sinking of wells under the new scheme	4,526	10	5
Total ...	8,526	10	5

Contributions.

From Provincial to Local :—

	Rs.	a.	p.
In 1894-95	58,701	4	5
„ 1893-94	60,139	15	4
Decrease ...	1,438	10	11

The details of these contributions are as follows:—

	Rs.	a.	p.
Sand and quarry fees receipts	9,227	5	1
Fishery fees	25,423	11	4
Provincial contribution towards the repair of roads	3,991	0	0
Government grant to schools	15,129	4	0
In lieu of one-anna cess on excise revenue ...	3,630	0	0
Government grant to Local Board Despensaries .	*1,300	0	0
Total ...	58,701	4	5

* Of this, Mehar received Rs. 700 and Dokri Rs. 600. Both these were transferred to Local Funds during the year.

The decrease is due to the fact (*a*) that the Government grant Rs. 2,000 towards Sind Horse Show, which was credited to this district in 1893-94, was transferred to Jacobabad, as the show was held there in 1894-95; (*b*) that no Government grant towards school buildings was credited this year; (*c*) Rs. 147 out of the Provincial grant for road repairs was deducted from the grant of Rs. 4,138 on account of that portion of the road which lies in Khairpur Territory having been retransferred to Provincial Services *vide* Government Resolutions Nos. 159A—651 of 10th April 1894.

From other Boards—

The Local Fund grant was Rs. 1,000 for Mehar and Rs. 600 for Dokri.

The District Board added a further contribution of Rs. 900 to the Veterinary Dispensary at Shikárpur, which was transferred to Local Fund with effect from 1st February 1895.

The incidence of taxation per head of population is 3-10, annas three and pies ten, against four annas in the preceding year.

III.—Expenditure.

	Rs.	a.	p.

This is due to the two clerks in the offices of the President, Táluka Local Boards, Lárkhana and Rohri Divisions, having been transferred to Establishments under Section 46 C of the Bombay Local Boards Act I of 1884—*vide* Government Resolution No. 2068 of 21st June 1894.

The amount expended under this head is on account of the cost of Collector's Local Fund Establishment, including the two clerks lately added under Government Resolution No. 2068 of 21st June 1894.

Commissioner's Local Fund Establishment.
Educational Inspector's Local Fund Clerk.

Accountant-General's Office audit fee—

XXII.—Education.

	Rs.	a.	p.
The total amount expended under this head in 1894-95 was	86,049	4	9
Against Rs. in the preceding year	90,557	3	7
Decrease ...	4,507	14	10

due to a large sum having been contributed in that year towards the construction of the Technical School at Sukkur.

Primary schools, 1894-95	58,782	4	0
Do. 1893-94	48,267	1	0

11 additional schools were opened during the year against 12 in the previous year.

The number of indigenous schools fell from 423 in 1893-94 to 396 in 1894-95.

There were 132 primary schools distributed according to the following divisions :—

Sukkur	33
Lárkhána	40
Mehar	24
Rohri	35
	132

attended by 5,166 boys.

Training and Special Schools :—

	Rs.	a.	p.
1894-95	322	1	6
1893-94	1,378	9	2
Decrease ...	1,056	7	8

The District Board provides for 19 scholarships in the Training College and 10 in the Agricultural Class at Hyderabad. The College turned out in this year 7 men for employment in the district.

Grants in aid—

	Rs.	a.	p.
In 1894-95...	19,287	0	0
and „ 1893-94...	28,616	15	0
Decrease ...	9,329	15	0

In 1893-94 the District Board contributed Rs. 10,000 towards the foundation of the Upper Sind Victoria Jubilee Technical Institute at Sukkur, and the fact of its not being a recurring charge accounts for the decrease.

Miscellaneous.

	Rs.	a.	p.
In 1894-95	... 4,474	12	9
„ 1893-94	... 8,953	6	0
Decrease	... 4,478	9	3

Being a fluctuating charge, requires no explanation.

XXIV.—Medical.

The amount expended under Hospitals and Dispensaries is as follows :—

	Rs.	a.	p.
1894-95	... 14,361	0	3
1893-94	... 10,059	13	0
Increase	... 4,301	3	3

due to the cost of the Local Fund Dispensaries being entirely borne by the Local Funds with effect from 1st April 1894 and to the fact that a sum of Rs. 210-2-0 was expended by the District Board in obtaining 16,000 pice packets of quinine from the Superintendent, Jail Manufacture, Calcutta, for free distribution amongst the poor and needy sufferers living in outlying villages. This was appreciated by the people, and the Board has, therefore, provided double the amount for this purpose in the budget for 1895-96.

Vaccination Establishment and Charges.

The expenditure under this head amounted

	Rs.	a.	p.
In 1894-95 to	... 9,559	3	0
Against Rs. in 1893-94	... 2,610	8	7
	6,948	10	5

The increase is due to the fact that the figures for 1893-94 were not adjusted during that year, as mentioned in the previous report.

Sanitation Charges.

	Rs.	a.	p.
In 1894-95 and In 1893-94	... 300	0	0
	... 407	12	6
Decrease	... 107	12	6

due to the fact that no quinine was purchased during the year, as there was a saving from the previous year's supply.

26.—Scientific and other Minor Departments.

Veterinary charges—

	Rs.	a.	p.
1894-95	... 1,067	7	9
1893-94	... 201	8	0
Increase	... 865	15	9

due to the Veterinary Dispensary charges from 1st February 1895 having been transferred to this head.

A sum of Rs. 350 has been sanctioned by the Board on account of the scholarship, Board books and College fees of the student studying in the Veterinary College, Bombay, and the reason why Rs. 42-15-0 was spent in excess of the annual grant was that the student's travelling expenses from Shikárpur to Bombay were disbursed during the year 1894-95 instead of 1893-94.

The Veterinary Dispensary figures are as follows:—

	Number of patients treated in 1894-95.	1893-94.
Admitted	843	421
Cured	702	308
Relieved	65	36
Died	4	4
Unknown	39	40
Remaining	17	26
Incurable	16	7

The receipts of the Veterinary Dispensary amounted to Rs. 4,418-15-9, while the expenditure, Rs. 3,825-13-1.

The Itinerating Veterinary Graduate was appointed on the 4th July last and he was sent throughout the district to visit such parts as were affected by cattle-diseases, as also attended the treatment of Government stallions stabled outside the sphere of the Veterinary Dispensary. The Veterinary Dispensary Fund was by order of Government transferred to the Incorporated Local Funds (*vide* Government Resolution No. 10572, dated 22nd December 1894) with a balance of Rs. 529-14-5.

Bull and Stallion Charges.

	Rs.	a.	p.
In 1894-95...	1,791	4	6
„ 1893-94...	2,227	14	3
Decrease ...	436	9	9

due to a reduction in the number of Government stallions.

One donkey stallion was lent to the Khairpur State under orders contained in the Superintendent, Civil Veterinary Department's letter No. 950 of 24th May last, and another was shot by order of the Superintendent, Civil Veterinary Department, contained in his No. 676 of 17th September 1894, as he was bitten by a mad dog. Horse stallion "Royal Visit" was also shot by order of the Superintendent, Civil Veterinary Department—*vide* his letter No. 324 of 11th March last, as he was unfit for stud purposes.

The number of mares covered by horse stallions was 106 against 114, and that by donkey stallions 423 against 497, in the preceding year, or an average of 26½ and 42⅓ respectively.

The result of coverings remains as unsatisfactory as ever.

Botanical and other Public Gardens.

The expenditure under this head was—

	Rs.	a.	p.
in 1894-95 and „ 1893-94	3,863	6	1
	3,784	5	6
Increase. ...	79	0	7

Being small needs no explanation.

XXX.—Stationary and Printing.

Stationery purchased in the country in—

Printing.

	Rs.	a.	p.
1894-95	220	8	3
1893-94	897	7	10
Decrease ...	676	15	7

In 1893-94 the lists 1 and 2 had to be published under Section 20 of the Bombay Local Boards Act I of 1884, and consequently the charge of getting copies printed was great. No such charge was incurred during the year under report: hence the decrease.

32.—Miscellaneous.

Expenditure under this head is classed as follows:—

Staging Bungalow and Serái Establishments—

	Rs.	a.	p.
In 1894-95	1,950	6	8
„ 1893-94	2,181	11	7

due to reduction in the Dharmsála Establishment.

Other petty establishment and charges consisting of establishment for the preservation of trees and well workers—

Cost in 1894-95	23,941	11	7

THE DEPUTY COMMISSIONER,

To

THE COMMISSIONER IN SIND.

Deputy Commissioner's Office,
Hyderabad, dated —— June 1895.

SIR,

I.—Constitution.
II.—Income.
III.—Expenditure.
IV.—Sanitation.

I have the honour to submit the Annual Administration Report on the working of the Local Boards in this district for the year ending 31st March 1895 together with the four statements marginally noted.

STATEMENT I.

Constitution.

2. In consequence of the territorial changes occasioned by the transfer to the Thar and Párkar District of the Mirpur Khás Táluka and certain villages of the Dero Mohbat and Shahdádpur tálukas of the Hyderabad Collectorate from the 1st August last, the number of Local Boards has risen from 7 to 8: hence there has been an increase, both in the population and area of the district. As compared with the past year the figures stand as follows :—

Year.	Area.	Population.
1893-94	12,725	291,510
1894-95	13,434·72	333,631
Increase ...	709·72	42,121

3. With the exception of the Mirpur Board recently transferred as above stated, the Boards of this district were constituted under Government Resolution No. 1293, dated 12th February 1885, as modified by Government Resolution No. 4389, dated 29th June 1891.

4. The area and population of the municipal towns of Umarkot and Mitti have been omitted from columns 4 and 5 of the statement relating to the constitution of the Local Boards.

5. Owing to the amalgamation of the Mirpur Khás Táluka the number of members of the District Board has increased from 10 to 11. The number of members of the Taluka Local Boards of Umarkot, Khipra and Sanghar has also been increased to 9, 8 and 7 respectively: *vide* Government Resolution No. 2665, dated the 18th July 1894. The change in the case of the Khipra Táluka Board was necessitated by the general development of the táluka and by the increasing responsibilities of the Board, while in the case of the Sanghar and Umarkot tálukas it was due to the amalgamation of additional villages from the tálukas of Shahdádpur and Dero Mohbat in the Hyderabad District. Thus the total number of members constituting the District and Táluka Boards is now 68, including the members of the Mirpur Khás Board, of which 60 are nominated and 8 elected. The extension of the elective franchise to this district (exclusive of Mirpur Khás) was not considered expedient owing to the comparatively backward condition of the people. Out of the 8 elected members, 6 were returned for the Mirpur Board, in which táluka the elective system is in force; the remaining two members are representatives of the Municipalities of Umarkot and Mitti.

6. The number of meetings held during the year under report was in accordance with the rules, except in the case of the Párkar Board; the funds at

the disposal of this Board were, however, so insignificant that it was not necessary to hold many meetings.

7. The provisions of Section 34 of the Act were also availed of on 31 occasions for the circulation of propositions among members of the District Board. The business of the Board is practically carried on by the official members. The non-official members take comparatively little interest in their duties, but content themselves generally with attending the meetings and agreeing to the proposals brought forward by the official members. The official members have discharged their duties satisfactorily, specially the Vice-President of the Khipra Board, R. S. Rámbux.

8. The inadequate attendance of members at the meetings is to be accounted for in measure by the fact that some of the members reside at long distances from the head-quarter station.

Statement II.

Income.

9. The opening balance of the Boards as shown in this statement is Rs. 21,090-1-6, whereas the closing balance for the year 1893-94 was shown at Rs. 18,346-11-4. The difference between the two amounts is due to Rs. 2,743-6-3 being added to the balance on account of the share allotted to this district from the Hyderabad District in consequence of the transfer of the Mirpur Táluka and certain dehs of the Shahdádpur and Dero Mohbat Tálukas. A sum of one pie was, moreover, adjusted in connection with certain expenditure on Local Fund works incurred by the Executive Engineer, Eastern Nára, after the submission of the Local Board administration report for 1893-94 : *vide* Accountant General's letter No. $\frac{L.\ F.}{10116}$ of 4th July 1894 :—

The whole of the cess levied within the municipal limits is assigned to the Municipalities concerned under Section 47 of the Local Boards Act. The amount so assigned is trifling and amounted in the aggregate to Rs. 10-7.

The sum of Rs. 13,797-3-4 has been transferred to the institutions noted in the margin having a balance of Rs. 21,456-0-2 at the disposal of the District and Taluka Local Boards. As compared with the last year's figures there is a decrease of Rs. 8,410-14-6, which is due to short receipts arising from—

(1) The closing of the Nára Supply Channel in consequence of its being deepened, and the additions and alterations to the head regulator, *vide* Government Resolution No. 114 W.I.—1577 of 11th October 1893, which resulted in a diminution of rabi cultivation.

(2) from the damage caused to the kharíf cultivation this season in consequence of the floods.

XII.—Interest.

11. The sum of Rs. 920-4-1 shown against the District Board, General, is on account of the interest on the closing balances of certain minor Municipalities which have been abolished. The balances were invested in Government paper, and the interest is annually credited to Local Funds, in consideration of which the Local Board have undertaken to maintain certain institutions. The increase of Rs. 102-4-11 under this head is due to the amount received in advance as interest at ½ per cent. from 1st May 1894 to 31st July 1895 on Government promissory notes transferred from 4 per cent. of 1854-55 to 3½ per cent. of 1865.

XVII.—Police Receipts under Cattle Trespass Act.

12. The receipts under this head represent the net profits of the pounds in non-municipal towns. There is a nominal increase of Rs. 252-13-0 under this head, which is due to the transfer of the pound receipts realized in táluka Mirpur Khás to the Thar and Párkar District.

XIX.—Education.

13. The sum of Rs. 36-8-0 is on account of fees levied in Khán and Mirpur schools in the táluka of Mirpur Khás. In other tálukas of this district no regular school fees are levied.

Comparing these receipts with those of last year, a net increase will be found of Rs. 2,908-8-8 due principally to an additional grant of Rs. 2,556-12-0 having been sanctioned by Government on account of primary education owing to the transfer of the Mirpur Khás Táluka schools: *vide* Educational Inspector in Sind's No. 2515, dated the 31st August 1894, and Government Resolution No. 385, dated the 23rd February 1895, and is also due in part to the increased grant for school buildings.

The incidence of taxation on the whole district population is Re. 0-1-8 per head and that of income (excluding opening balances) is Re. 0-2-9 per head. Government in their Resolution No. 817, dated the 12th March 1892, were pleased to approve of the establishment of a grant-in-aid Dispensary at Sanghar, the head-quarter of the táluka, and in an out of the way place situated in a malarious part of the country, but owing to want of funds the construction of the building could not be undertaken earlier. Arrangements were, however, made for supplying medical relief during the sickly season at the cost of the Táluka Local Board.

The total expenditure thus incurred amounted to Rs. 345-7-0. The work of the Dispensary building, according to the standard plan sanctioned by Government, was taken in hand in the beginning of the year under report and was completed in May last, and the grant-in-aid Dispensary was opened from the 19th of the latter month.

The sum of Rs. 5,734-10-7 represents the expenditure on the following Government grant-in-aid Dispensaries :—

29. The sum of Rs. 2,935-13-4 represents the expenditure on account of the vaccination establishment.

As compared with the last year's figures there is an increase of Rs. 138-14-11 due to the transfer of the Mirpur Khás Táluka from the Hyderabad to the Thar and Párkar Collectorate. The sum of Rs. 90 under sanitation charges is on account of grants made to the following Sanitary Boards :—

	Rs.
1. Cháchra	60

As compared with last year's figures there is a decrease of Rs. 80 owing to the contribution towards the Sanitary Board at Nabisar having been discontinued.

26.—Scientific and other Minor Departments.

30. The sum of Rs. 16-8-7 under experimental cultivation is on account of the cost of 112 lbs. of English potatoes obtained for experimental purposes.

31. The sum of Rs. 80-13-0 represents stall fees collected at the annual fair held at Pir Pithoro which were erroneously credited during 1893-94 to the Thar and Párkar Local Funds and shown in Statement No. II of that year under 26.—Scientific and other Minor Departments and which were subsequently refunded and credited to ordinary revenue deposit in the Khipra sub-treasury: *vide* Government Resolution No. 1898, dated the 27th March 1893.

32. The sum of Rs. 208-12-3 shown under "Bull and Stallion Charges" is on account of the feeding charges of the stallion "Opal" who arrived at Umarkot in the beginning of 1892. Although this stallion covered a large number of mares, yet the results proved extremely unsatisfactory; in fact, he was found to be utterly useless and was therefore sold at Hyderabad by public auction under instructions from the Superintendent, Civil Veterinary Department, Bombay Presidency, for Rs. 270.

I now propose asking the Superintendent to procure a stallion of Káthiáwári breed for this district, as this class of horse will, I am satisfied, prove more acceptable to the people, who seem to regard Arabs and other imported horses with disfavour, besides which Káthiáwáris are more likely to adapt themselves to local conditions, and to succeed better in the desert tracts than English thorough breeds, of which "Opal" was one.

A donkey stallion "Logie" was forwarded by the Superintendent in January last. This stallion has not as yet done any work. The Mukutyárkar reports that although mares have been frequently brought up, he has not been as yet induced to cover them. It is possible that the damp climate of the Nára has proved enervating, and the animal will probably have to be returned.

Printing.

33. The sum of Rs. 66-6-11 is on account of cost of forms.

34. The sum of Rs. 785-4-0 represents the pay of watchmen employed at dharmsálas. As compared with the last year's figures, there is an increase, under this head, of Rs. 59-2-8 owing to some places having been vacant during 1893-94.

35. The sum of Rs. 4,336-5-0 under other petty establishment represents the expenditure on road-side trees and the maintenance of two boats at the 18th and 24th miles of the Mithrau Canal. There were originally wooden bridges at these places, but it was found necessary to remove them, as they obstructed the free flow of water, and did not admit of a passage for boats. In lieu of these two bridges, ferry boats have been provided, there being little traffic at these places. The boats were supplied by the Public Works Department and the working expenses are met from Local Funds. As compared with the last year's figures, there is an increase of Rs. 273-15-0, which is partly due to the boats having ceased to work for a portion of the year during 1893-94 owing to the

closing of the Mithrau Canal and partly owing to the establishment of watering trees in the Mirpur Khás Táluka having been transferred to the Thar and Párkar District.

36. The sum of Rs. 21-5-0 shown under miscellaneous and unforeseen charges is made up as follows :—

	Rs.	a.	p.
1. Expenses during epidemics	10	14	0
2. Amount assigned to Umarkot Municipality under Section 47	9	12	0
3. Do. Mitti do. ...	0	11	0
	21	5	0

As there is no special head provided for the above items, they have been shown under this head: *vide* your Nos. 53 and 375 of the 9th January and 28th February 1894, respectively.

45.—Civil Works in charge of Civil Officers.

Civil Works in charge of Public Works Officers.

38. The expenditure under this head is Rs. 4,195-12-6 which was incurred on the following works :—

	Rs.	a.	p.
1. Constructing Dispensary building at Sanghar ...	2,996	10	11
2. Reviewing charges of the plans and estimates for constructing school-house at Goth Ghulam Nabishah and for renewing roof of school-house at Khipra and of dharmsála at Mirpur Khás	32	3	0

4. Do. Thar Canal road ...	330	9	0
Total ...	4,195	12	6

The aggregate expenditure, both by Civil and Public Works officers, amounts to Rs. 20,666-6-0. The increase of Rs. 5,648-1-3 as compared with the last year's figures is due to fewer works having been undertaken during 1893-94 owing to the insufficiency of funds.

Contribution to Provincial.

39. The sum of Rs. 2,000 under this head is on account of the contribution to the Hyderabad-Umarkot Railway. The Board bound itself to contribute a sum of Rs. 20,000 towards the construction of the Hyderabad-Umarkot Railway, out of which Rs. 8,000 were paid in 1891-92 and Rs. 8,000 in 1893-94, the sum of Rs. 2,000 have been paid in 1894-95, making a total of Rs. 18,000. The balance thus remaining, *viz.* Rs. 2,000, will be paid in the current year.

40. The opening balance of the District and Táluka Boards on the 1st April 1894 amounted to Rs. 21,090-1-6 and the income during the year under report amounted to Rs. 57,512-9-1, making a total of Rs. 78,602-10-7. The expenditure of the year amounted to Rs. 60,879-1-8, leaving a closing balance of Rs. 17,723-8-11. The maximum balance for this district is fixed at Rs. 8,000 whereas the balance on the 1st of April 1895 amounted to Rs. 17,723-8-11. The excess is due to several works provided for in the Budget for 1894-95 not having been carried out owing to unavoidable circumstances. The works have, therefore, again been provided in the current year's Budget.

STATEMENT IV.

Sanitation.

41. In the year under report, 31 wells and two tanks were repaired. Drainage works and other sanitary improvements on a large scale are less needed in this part of Sind than elsewhere for the reasons stated in Sir Charles Pritchard's memo. to Government, No. 1133, dated the 14th September 1888.

42. The members of the Local Fund Establishment have continued to perform their duties satisfactorily.

I have the honour to be,
Sir,
Your most obedient Servant,
C. E. S. STEELE,
Deputy Commissioner,
Thar and Párkár.

No. 181 OF 1895-96.

LOCAL FUND DEPARTMENT.

FROM

THE DEPUTY COMMISSIONER,
UPPER SIND FRONTIER;

To

THE COMMISSIONER IN SIND.

Deputy Commissioner's Office, Jacobabad,
Dated 29th May (despatched 3rd June) 1895.

SIR,

I have the honour to submit the Annual Administration Report on the working of the Local Boards in the Upper Sind Frontier District for the year 1894-95 together with the Statistical Tables I to IV in the form prescribed by the Government of India notified under Government Resolution No. 779 of 30th January 1890.

2. The instructions contained in Government Resolutions Nos. 4686 and 3847, dated the 5th July 1890 and 5th June 1891, respectively, have been duly attended to.

3. Statement No. I gives the strength of each Local Board, the number of meetings held, and the average attendance at each. With regard to the constitution of the Boards, it should be mentioned that the extension of the elective franchise to this district was not considered expedient owing to its comparatively backward condition; the Boards were, therefore, constituted under the conditions contained in Government Resolution No. 9547, dated 3rd December 1884. In terms of the notification so issued, the Jacobabad Municipality elects a representative from among its members, and in the other táluka head-quarter towns the Panchâyets return a member; for the rest the Boards consist of *ex-officio* and nominated members.

4. The difference in the area now shown as compared with that given last year is 4·03 square miles. This was discovered after the survey of the remaining 26 unsurveyed dehs of the Thul Táluka last year.

5. The number of meetings held appears to have been sufficient except in Jacobabad and Shahdádpur. The number of meetings held in Jacobabad was only two, the same number as was held last year. The attention of the President was invited to this shortcoming last year. He will again be written to on the subject. The number of meetings held in Shahdádpur was less by 1 than that held during the previous year.

The President's attention will also be invited to this matter. The District Local Board complied with the provisions of the rule regarding the holding of half-yearly meetings. The provisions of Section 34 of the Act, which allow of the circulation of propositions amongst members of the District Local Board, were taken advantage of on 13 occasions.

6. The average attendance at each meeting has been struck off in terms of paragraph 2 of your No. 2550 dated 12th November to the address of Government.

7. The business of the Board is practically carried on by the official members; the others do little more than attend meetings and acquiesce in the proposals placed before them, though they occasionally suggest new works such as wells, but they do no supervision of works in progress and are entirely apathetic. The official members work fairly, but the rules are not sufficiently followed, and too much work properly appertaining to President of Táluka Boards has been hitherto disposed of by the Deputy Commissioner and President, District Board.

Statement II.

8. The headings in this statement are so comprehensive that little seems called for in the way of comment. It may be explained, however, that the sum of Rs. 48 shown under veterinary receipts represents the share received on account of the hire of the Government donkey stallions working at the municipal well in Jacobabad. There is no increase or decrease as compared with the figures of the last year. The realization is for the past 12 months at the rate of Rs. 4 per mensem.

9. The sum of Rs. 23,816-9-7 shown under contributions is composed of the following items:—

		Rs.	a.	p.
1	Government grant on account of the Provincial roads ...	3,429	0	0
2	Do. in lieu of one-anna cess on excise revenue ...	1,732	0	0
3	Do. to schools...	8,090	12	7
4	Do. school buildings	409	8	0
5	Do. fishery receipts	1,107	0	0
6	Do. sand and quarry fees	34	5	0
7	Do. for horse show	2,000	0	0
8	Grant by the Shikárpur District Local Board towards the Sind Horse Show	2,500	0	0
9	Government grant on account of village water-supply ...	2,014	0	0
10	Do. to Dispensaries	1,100	0	0
11	Local Fund grant to do.	1,400	0	0
	Total ...	23,816	9	7

An increase of Rs. 8,576-13-0 is noticeable under this head as compared with the figures of the previous year, which is mainly due to the following causes:—

(1) Rs. 4,500 on account of grant from Government and the Shikárpur District Local Board on account of the annual horse show having been held at Jacobabad this year.

(2) Rs. 2,014 on account of Government grant for village water-supply.

(3) Rs. 1,100 on account of Government grant to Dispensaries.

(4) Rs. 1,400 on account of Local Fund grant to Dispensaries.

10. The sum of Rs. 4,677 shown under "32.—Civil Works", sub-head "Contributions," is composed of the following items:—

	Rs.	a.	p.
1 Grant by the Jacobabad Cantonment on account of repairs to roads	1,000	0	0
2 Contributions from private persons for construction of wells and water-courses	3,527	0	0
3 Contributions from Jacobabad Municipality on account of repairs to the portion of the road from Jacobabad to Begári Bridge lying within the municipal limits	150	0	0
Total ...	4,677	0	0

An increase of Rs. 1,904 is noticeable under this head, which is mainly due to contributions having been received from the villagers in aid of village water-supply.

11. The income of the year from all sources was Rs. 80,893-1-2 as against Rs. 65,431-8-10 in the preceding year, which when added to the closing balance of the last year (Rs. 34,874-2-10) gave a total of Rs. 1,15,767-4-0.

12. The sum of Rs. 161-11-1 appearing under sale-proceeds of trees, grass subordinate to "I.—Land Revenue" represents the sale-proceeds of lopping of roadside trees, bábul pods and of dead timber. As compared with the figures of the last year, the decrease is of Rs. 148-14-5, which is due to the sale of a number of trees which had been blown down during that year.

VI.—Provincial Rates.

13. The revenue shown under this head is the net-proceeds of the one-anna cess levied under the Sind Local Fund Act, 1865, and amounted to Rs. 48,640-3-0 as compared with Rs. 43,769-11-0 during 1893-94, showing an increase of Rs. 4,870-8-0, which was caused by an increase in cultivation over the preceding year.

14. The sum of Rs. 40-6-6 shown under "XII.—Interest" is on account of interest realised from the deposit of the Promissory Notes, belonging to Dispensaries, in the custody of the Accountant General. As this item of receipt is for the first time shown in this statement, no comparison is made between the figures for the two years.

XVII.—Police.

15. The receipts under this head represent the net profits of the pounds in non-municipal towns. There is an increase of Rs. 924-5-5 as compared with the figures of the last year, which is due to large number of cattle having been impounded.

16. The sum of Rs. 126-12-0 shown under "XX.—Medical" is composed of the following items;—

Rs.	a.	p.	
1. 6	12	0	On account of hospital stoppages.
2. 120	0	0	Do. of contribution by the Jacobabad Municipality for vaccination work performed by the Local Fund vaccinator within the municipal limits.

17. The staging bungalow fees amounted to Rs. 112-8-0 during the year as against Rs. 99 last year. The increase of Rs. 13-8-0 is due to a large number of travellers having occupied the bungalow.

18. The sum of Rs. 445-11-3, shown under "Other items" subordinate to "XXV.—Miscellaneous", is composed of the following items:—

	Rs.	a.	p.
1. On account of stallion charges drawn in excess	5	14	7
2. Do. of batta of a vaccinator erroneously drawn from Local Funds	6	6	0
3. Refunded by the Public Works Department on account of contribution drawn in excess towards the cost of repairs of the old Edenwah embankment	0	14	5
4. On account of repairs to roads drawn in excess	0	0	1
5. Do. of the cost of repairing roads inundated by Zamindári canals	133	0	0
6. Refunded on account of contribution drawn in excess for the Local Fund clerk employed in the Educational Inspector's office ...	11	4	6
7. Credit of the amount drawn on account of the purchase of cotton carpets, as it could not be utilized during the year	200	0	0
8. Recovery on account of charges for forms erroneously debited to Local Funds instead of Village Cess Fund	0	3	2
9. Unclaimed wages of workpeople employed for repairing roads ...	3	0	6
10. Refund of the amount advanced for improvements to the water tank at Shahdádpur, the work having been found to be unnecessary...	55	0	0
11. On account of High and Special Schools Scholarships erroneously debited to Educational Local Funds instead of Provincial Revenues	30	0	0
Total ...	445	11	3

The increase of Rs. 305-10-4 is chiefly due to items Nos. 7 and 5 above.

19. There is an increase of Rs. 35 under "Rents of buildings and lands," subordinate to "XXXII.—Civil Works in charge of Civil Officers" as compared with the figures of the past year, which is due to rent from stalls constructed during 1894-95 at the cost of Local Funds.

20. The incidence of taxation and that of income per head of population is shown against each Board. The incidence of taxation on the whole district population is 4 annas and 10 pies per head, and the incidence of income (excluding opening balance) is 8 annas. This shows an increase of 6 pies in the former and 1 one anna and 8 pies in the latter as contrasted with the preceding year. The increase is due to the increase in the amount of income.

STATEMENT III.

21. The following details are explanatory of each of the items in Statement III as stand in need of further elucidation:—

Total ...	3,518 3 4	

As compared with the figures of the previous year the decrease amounts to Rs. 44-13-7, which is chiefly due (1) to reduced charges for vaccination, (2) on account of the Accountant General's audit fee.

1893-94	15,483	1	0
1894-95	16,571	13	7

Total ...	3,213	8	3

The net decrease under this head is Rs. 163-5-9 which is attributable

(1) To the building grant of Rs. 318 made last year for the construction of quarters for students in the Agricultural School, Hyderabad.

(2) To the increase of Rs. 154-10-3 on account of grant-in-aid to the Indigenous Schools.

Hyderabad Training College	944	7	3
Do. Agricultural School	189	0	2
Scholarships, Special Schools	90	0	0
Total ...	1,223	7	5

There is a decrease of Rs. 100-1-0 under this head as compared with the figures of the past year which is chiefly due to fewer books having been supplied to the students of the Training College than in the previous year.

XXIV.—Medical.

24. The expenditure under this amounted in—

	Rs.	a.	p.
1893-94	1,869	8	5
1894-95	4,870	0	1
Increase ...	3,000	7	8

The increase is due to the following causes :—

(1) to exhibiting in the statement, under the sub-heads "General Medical Establishment" and "Hospitals and Dispensaries", Rs. 871-11-2 and Rs. 1,986-3-8, total Rs. 2,857-14-10, against Local Board Dispensaries, the charges incurred for the maintenance thereof, the funds of which have been incorporated with Local Funds and their accounts kept by the District Local Board from the 1st April 1894, in terms of Government Resolution No. 4352, dated 12th December 1893, Financial Department;

(2) to the entertainment of conservancy establishment at a cost of Rs. 117, consisting of 2 sweepers for the town of old Thul and shown under sub-head "Sanitation Charges." The amount shewn under "General Medical Establishment" represents pay fixed and travelling allowance to the Hospital Assistants in charge of the Grant-in-aid Dispensaries at Shahdádpur and Kashmor, and that shewn under "Hospitals and Dispensaries" against "Local Board Dispensaries" represents pay to 2nd class servants, medicines, diet and other contingent charges.

26.—Scientific and other Minor Departments.

25. Under the head "Horse Fairs" the expenditure was as follows :—

	Rs.	a.	p.
1893-94	1	0	6
1894-95	5,694	5	2
Increase ...	5,693	4	8

This is due to the fact that during the year under report the show was held at Jacobabad.

Bull and Stallion Charges.

	Rs.	a.	p.
1893-94	1,857	9	2
1894-95	1,651	12	10

showing a decrease of Rs. 205-12-4, which is due to a smaller number of stallions being present in the district than in the previous year.

26. The figures under this head represent, it may be noted, $\frac{2}{5}$ths of the expenditure incurred on the feed and keep of the horse and donkey stallions in this district, being the proportion of the charges due by Local Funds as sanctioned by Government in terms of their Resolution No. 4613, dated the 11th July 1888. In all 7 horses, 1 pony and 6 donkey stallions are maintained. The sum of Rs. 48 shown under "Botanical and other Public Gardens" represents the cost of vegetable and flower seeds purchased for planting in the nursery gardens in the táluka head-quarter stations in this district. Under "Printing" the expenditure during the year under report is less than in the previous year.

27. The principal works undertaken by Civil officers consist of the construction of 4 bridges in the Jacobabad Táluka at a cost of Rs. 2,331-2-10, one musáfirkhána at Mouladad at a cost of Rs. 376, of which Rs. 300 have only been paid during this year, and one musáfir landhi on the road from Kandhkote to Kumbri at a cost of Rs. 50. A compound wall to the musáfirkhána at Malguzar was provided at a cost of Rs. 130, and additions and improvements to the musáfirkhánás at Baga Darra, musáfir landhis at Dilmurad and New Thul were carried out at an outlay of Rs. 213-11-0.

The sums of Rs. 1,586 and Rs. 90 shown under "Communications" against Táluka Local Boards, Thul and Shahdádpur, represent the contribution paid to the Public Works Department towards the cost of construction of a regulating bridge over the Unharwah and the cost of embanking a portion of Shahdádpur Baga-Darra road. The sum of Rs. 446-15-3 shown under "Miscellaneous Public Improvements" represents the expenditure incurred for the first time in clearing jungle in and round the sites of 24 villages, in terms of Government Resolution No. 2994, dated 25th August 1893, General Department. The sum of Rs. 5,642-6-5 was spent in the sinking of wells.

28. The staging bungalows and seráis, which have been included under Civil buildings, have been provided for by the different Boards wherever they were required, and are a great boon to the public travelling throughout the year.

29. Rs. 3,732 were sanctioned for the construction of 5 bridges over zamindári karias crossing the Local Fund roads through the agency of Public Works Department as hitherto. I did not think it worth while to entrust the execution of such petty bridges to the Public Works Department which could very easily be done by the Board by the entertainment of an overseer, who not

only would be useful to inspect the works, but could prepare plans and estimates and thereby save the Boards from the 12 per cent. charges of Public Works Department. I gave out contracts for the bridges for Rs. 2,818, and thus a saving of Rs. 904 was effected.

An overseer was entertained to inspect the works from the last week in February 1895. Of the five bridges, four were completed during the year and the fifth just after the close of the year.

30. The works carried out by Public Works Agency consisted of bridges over karias, the execution of which was undertaken last year and were completed and paid for during the current year.

31. The total expenditure on Civil works amounted to Rs. 34,004-14-11 as against Rs. 30,571-3-11, showing an increase of Rs. 3,433-11-0.

32. The sum of Rs. 21-2-0 shown under "Contributions", sub-head "To other Boards", represents the amount paid to the Jacobabad Municipality under the provisions of Section 47 of the Local Board Act I of 1884.

33. The entire expenditure of the year was Rs. 74,833-9-6 as against Rs. 63,236-14-0 last year, leaving a balance of Rs. 40,933-10-6 at the close of the year.

STATEMENT IV.

34. This statement shows the number and cost of new tanks and wells dug or sunk and other sources of water-supply repaired by each Board, and requires no comment.

DHÁRWA'R.

Statement showing the original Cost, Mileage and present Condition of all Local Roads in the Dhárwár District for the year 1894-95.

No.	Name of Local Roads.	Length in miles.	Original cost of construction.	Remarks as to the present condition of the road.
			Rs.	
1	Navalgund-Annigerri road.	11½	1,10,226	Metalled throughout and in good order. Three unbridged streams sometimes give a little trouble.
2	Navalgund-Ron road.	28	1,49,007	A fair-weather road only, unbridged as to the large streams and murumed for only 20 miles.
3	Masur-Mundargi road	47	32,248	A fair-weather road misnamed. From Masur to Guttal the road is made or being made. North of Guttal towards Mundargi, a distance of 25 miles, there is no road at all, nor is a road likely to be made for many years. Just outside Mundargi the road is made for 7 miles only in the direction of Guttal.
4	Pala-Bádámi road ...	78	1,45,600	This also is a too ambitiously named road. From Pála to Bankápur (19 miles) it is a good murum road bridged throughout. From Bankápur to Yelvagi (14 miles) the road is bridged and metalled in the portions within British territory, but there are bad breaks in the Native State of Savanúr, Miraj (Junior). From Yelvagi the road is through Native States for a length of 15 miles and is fair in places and indifferent in others. Near Mulgund, where British territory is again entered, there is a break of 7 miles of unmade road to Harti. From Harti to the Bádámi frontier (37 miles) the road is fair, but unbridged and heavy in the rains. During the year 1891-92 the improvements sanctioned by the District Board in 1887 for the portion between Gadag and Kotmachgi (14 miles) were completed, but there is much room still for improvements. The work done so far is all good, consisting of laying a murum surface and making up the nála crossings with proper approaches and metalled roadway.
5	Tádas-Gundi road ...	34½	Not known.	A fair-weather road mostly unbridged.
6	Harihar-Samasgi road	51¼	Do.	A fair-weather road metalled in places.
7	Byádgi-Havasbh á v i road.	10¾	24,690	Do. do.
8	Dhárwár-Tádas road.	29¼	37,128	A fair murum road bridged throughout.
9	Dhárwár-Halyál road.	M. ft. 17 556	21,980	A metalled road, bridged and drained, in fair order.
10	Dhárwár-Saun d a t ti road.	13 1,425	29,825	Partially metalled, but unbridged.

W. L. CAMERON,
Executive Engineer, Dhárwár District.

RATNA'GIRI AND KOLA'BA.

Statement showing the Local Fund Roads in charge of the Executive Engineer, Ratnágiri and Kolába Districts, with the original cost, mileage and present condition for the year 1894-95.

No.	Names of Roads.	Length in miles.	Original cost.	Present condition.	Remarks.
			Rs.		
1	Road from Alibág to Rewas.	15	1,54,188	The road is from 18 to 20 feet in width; it is embanked, bridged and drained, and has murum surface. About four miles of the road from Rewas side run through salt marshes and the mile near Rewas is in some places subject to damage by high water from Dharamtar creek. The pitched embankment is gradually settling in some places; otherwise the road is in good condition.	
2	Road over Mutholikhind (section of Indápur and Tale road.	2½	17,066	The road commences from a point about one mile west of Nagothana-Mahád road near Indápur and comprises the whole of the ghát portion. It is a murum road 18 feet wide and is bridged and drained throughout, and in good condition.	
3	Portion of Pen-Panvel road between Dusviford and Kalhikhind.	3¼	16,998	This road is 16 feet in width and is bridged and drained throughout, and has a murum surface. It commences from the creek at Dusviford and ends at the foot of Kalikhind, and is in very good order.	
4	Road from Salao to Korlai.	2¼	5,359	This is a murum road 16 feet in width and is embanked, bridged and drained. It commences from the Revádanda creek and joins the road which leads to Janjira-Murud in Janjira State. The road is in very good order.	
5	Road from Alibág to Revadánda (portion from Sakhar to Revdánda).	8	Not known...	This is a murumed road, rather too narrow in places where it winds through villages and garden lands. It is lower in some places than the adjoining gardens and compounds, and the water during rains collects over its surface, which then becomes a running stream. It is a good road in fair weather.	Transferred to Public Works Department for maintenance since 1892-93.
6	Road from Pen to Khárepáda (portion of Pen-Panvel road)	7	Do. ...	This murum road is 15 to 18 feet in width and is in good order, but it crosses three unbridged creeks which are quite impassable at times during rainy season and more or less so always at high tide.	Do. do.
			Rs.		
	Pen-Panvel road (portion from Kolhikhind to Palaspe).	5¼	40,493	The road is under construction. 3¾ miles have been opened for traffic during the current year and are in good order. The remaining length will be completed in 1895-96.	Original cost shown in column 4 is the actual expenditure up to 31st March 1895.

APPENDIX V—*continued.*

No.	Names of Roads.	Length in miles.	Original cost.	Present condition.	Remarks.
8	Pen-Panvel road (portion from Palaspe to Kolka).	1	Not known .	This is a fair-weather murum road, requiring one nála to be bridged. It is susceptible of much improvement, especially the Palaspe village portion, which is rocky and narrow.	Transferred to Public Works Department for maintenance since 1893-94.
9	Uran-Karanja road .	5	Do. ...	This is a murumed road, in fair order.	Do. do since 1894-95
10	Road from Chiplun to Guhágar (portion from Guhágar to Chikli).	8	Rs. 20,163	The whole road from Chiplún to Guhágar is 27 miles, out of which a portion of 8 miles has been improved. It is 18 feet wide and bridged and drained, except in 3 places, where the nálas are provided with causeways. The road is in fair condition.
